Abortion, spontaneous, aging of fertilizing gametes and (Guerrero and Lanctot), 263
cytogenetics of (Arakaki and Waxman), 1199
Abscesses, genital bacteroidal, in women (Pearson and Anderson), 1264 (Comm. in brief)
Acetylcholine content of lung of rabbit neonate, influence of estradiol-17β on (Abdul-Karim, Marshall, and Nesbitt), 641
placental, in induction of premature labor (Goodlin), 429
Acid-base balance, fetal, in vigorous newborn infants, influence of cord around neck on (Arto-Medrano), 1035
maternal and fetal, effect of ethanol on (Dilts), 1018
measurements, fetal and maternal, following amniotic fluid bicarbonate or Tris infusions, changes in rhesus monkey (Seeds et al.), 232
metabolism, maternal, in normal human parturition (Cohen, Schulman, and Romney), 933
state, fetal, experiences in assessing (Simonson, Schoen, and Boyd), 754
status of rhesus monkey, influence of uterine blood flow on (Parer and Behrman), 1241
Adenocarcinoma, endometrial, survival in patients with factors affecting (Sall, Sonnenblick, and Stone), 116
Adrenal gland, fetal, and placenta of early human pregnancy, estrogen formation in vitro by (Wu et al.), 313
hypoplasia, severe, in live-born normocephalic infant with neurohypophyseal aplasia (Aimone and Campagnoli), 327 (Comm. in brief)
Aging of fertilized gametes and spontaneous abortion (Guerrero and Lanctot), 263
Alkaline phosphatase from human placenta and membranes at delivery, immunologic properties of (Neri and Korngold), 1047
leukocyte, in pregnancy and puerperium (Polishuk et al.), 604
Amines, exogenous, quantitative evaluation of effects of, on contractility of human myometrium in vitro (Sullivan and Marshall), 139
Amino acid alterations, plasma, during teen-age pregnancy (Dawson and McGanity), 585
Amniography, intrauterine diagnosis of fetal diaphragmatic hernia by (Agüero and Zighelboim), 971 (Comm. in brief)
studies of chronic fetal distress in hypertensive disorders of pregnancy (McLain and Russell), 673
Amniotic fluid bicarbonate or Tris infusions, changes in rhesus monkey maternal and fetal acid-base measurements following (Seeds et al.), 232
and fetus, transplacental passage of methicillin and dicloxacillin into (Depp et al.), 1054
human, embolism, influence of industrial surfactant (pluronic F-68) on (Hymes, Robb, and Margulis), 1217
identification of pressor substance in, role of epinephrine and norepinephrine (Zuspan), 664
spectrophotometric analysis of, in anencephalic pregnancies (Lee and Wei), 917
Androgens, induced alterations of hepatic metabolism of, in rat (Fahim et al.), 1085
Anencephalic pregnancies, spectrophotometric analysis of amniotic fluid in (Lee and Wei), 917

II. Etiology of fetal bradycardia following paracervical block anesthesia (Asling et al.), 626
Antibodies, anti-Lewis, in pregnancy, significance of (Perkins), 28
to genital herpesvirus in patients with carcinoma of cervix (Rawls, Gardner, and Kaufman), 710
Rh, passive antepartum and postpartum use (Clayton, Waller, and Foster), 704
rhesus, in liquor amnii, significance of (Dalton), 925
Anti-Lewis antibodies in pregnancy, significance of (Perkins), 28
Apgar score, variations with, of placental oxygen consumption in vitro (Friedman et al.), 1
Aplasia, Müllerian duct, clinicopathologic study of, with special reference to cytogenetic studies (Grover, Solanki, and Banerjee), 133
neurohypophyseal, severe adrenal hypoplasia in normocephalic live-born infant with (Aimone and Campagnoli), 327 (Comm. in brief)
Appendicitis, chronic, case coexistent with pregnancy (Todd, Pratt and Gross), 650 (Comm. in brief)
Arginine infusion, effect of, on plasma levels of growth hormone, insulin, and glucose during pregnancy and puerperium (Samaan, Goplerud, and Bradbury), 1002
Arrhenoblastoma, endocrine studies in (Mahesh, McDonough, and Deleo), 183
Arterial, venous, and capillary blood of fetal monkey during labor, composition of, comparison of (Adamsons, Beard, and Myers), 435
Artery(ies), umbilical human, innervation of (Nadkarni), 303
and veins, uterine, multiparous rats, vascular degenerative changes in (Wexler et al.), 6
Asphyxia, fetal, use of drugs to protect against (Goodlin and Lloyd), 227

B

Bacteriology of postpartum oviducts and endometrium (Spore et al.), 572
Bacterioidal abscesses, genital, in women (Pearson and Anderson), 1264 (Comm. in brief)
Bicarbonate and Tris infusions, amniotic fluid changes in rhesus monkey maternal and fetal acid-base measurements following (Seeds et al.), 232
Blackout, Big, evidence for drop in conceptions in (Menaker), 804 (Current opinion)
Bleeding, endometrial mast cell count and, in women following insertion of intrauterine device, relationship between (Mehra et al.), 852
postpartum, delayed (Thorsteinsson and Kempers), 565
Blood, arterial, venous, and capillary blood of fetal monkey, during labor, composition of, comparison of (Adamsons, Beard, and Myers), 435
flow and gaseous metabolism of rabbit uterus during pregnancy (Cotter, Blechner, and Prystowsky), 411
glucose levels and glucose tolerance in women with subclinical diabetes receiving oral contraceptive (Goldman and Eckerling), 325 (Comm. in brief)
growth hormone studies, normal lactation and (Spellacy, Buhi, and Birk), 244
sampling, fetal, complications of (Balfour et al.), 288
reliability of (Bowe et al.), 279

Book review, 334, 665, 976, 1273
Books received, 336
Bradycardia, fetal, following paracervical block anesthesia (Asling et al.), 626
Breech delivery, fetal heart rate during (Teteris et al.), 762
infant, large, management of (Neilson), 345

C

Calcium, fluoride and, placental transfer of (Armstrong, Singer, and Makowski), 432
Cancer (*see also* carcinoma)
gynecologic, vaginal fluid from women with, and without, modified assay for 6-phosphogluconate dehydrogenase in samples of (Rees et al.), 857
invasive and preinvasive, evaluation of several enzyme tests in vaginal fluid as aids in diagnosis of (Goldberg, Watts, and Hart), 465
of ovary, chemotherapy in treatment of (Smith and Rutledge), 691
Carcinoma (*see also* cancer)
of cervix, patients with, antibodies to genital herpesvirus in (Rawls, Gardner, and Kaufman), 710
endometrial, in patients with bilateral oophorectomy or irradiation castration (Hofmeister and Vondrak), 1099
Cardiovascular alterations in toxemia (Smith), 979
changes in vaginal deliveries and cesarean sections (Niswonger and Langmade), 337
Carpal tunnel syndrome, new complication ascribed to "pill" (Sabour and Fadel), 1265 (Comm. in brief)
Castration, irradiation, endometrial carcinoma in patients with (Hofmeister and Vondrak), 1099
Catheter, Foley, or suprapubic tube? (Hofmeister, Martens, and Strebel), 767
Central Association of Obstetricians and Gynecologists, transactions of thirty-seventh annual meeting, 657-796.
Cerclage, operation, midcervical, simple, for cervical incompetence during pregnancy (Shaalan), 969 (Comm. in brief)
Cervical conization and hysterectomy, time interval between (Williams, Johnson, and Pratt), 790
dysplasia, fate of (Sedlis, Cohen, and Sall), 1065
incompetence during pregnancy, simple midcervical cerclage operation for (Shaalan), 969 (Comm. in brief)
mucus, sperm penetration of (Macdonald and Lumley), 846
neoplasia, fibrinolytic activity in (Zeller, Okagaki, and Richart), 1071
Cervix, carcinoma of, antibodies to genital herpesvirus in patients with (Rawls, Gardner, and Kaufman), 710
uteri, human menopausal, histochemical study of mucosubstances and glycogen of (Tock and Shilkin), 194
Mycoplasma in (Gregory and Payne), 220
premalignant disease of, cryosurgical treatment of (Crisp et al.), 737
scleroderma of (Stenchever and Ng), 965 (Comm. in brief)
Cesarean hysterectomy (Patterson), 729
section, cystouterine fistula following, with discharge of menstrual blood per urethram (Sammour), 321 (Comm. in brief)
scar formation in uterus after (Wojdecki and Grynsztajn), 322 (Comm. in brief)
tubal sterilization accompanying, failure of (Husbands, Pritchard, and Pritchard), 966 (Comm. in brief)
Chemotherapy in treatment of cancer of ovary (Smith and Rutledge), 691
Chorangioma, placental hypertrophy associated with (Sen), 652 (Comm. in brief)
Chorionic and human postmenopausal gonadotropins, effects of, on secretion of cortisol and 17-ketosteroids in dog (Cushman), 519
Chromosome(s) of human leukocytes, effect of diazepam on, in vivo (Stenchever, Frankel, and Jarvis), 456
integrity, human, effect of nalidixic acid on (Stenchever, Powell, and Jarvis), 329 (Comm. in brief)
sex, mosaicism in 3 sibs (Goldstein et al.), 108
Chronic appendicitis: case coexistent with pregnancy (Todd, Pratt, and Gross), 650 (Comm. in brief)
Cindehill strain of rubella vaccine, immunization of young adult females with (Hildebrandt and Weber), 645 (Current investigation)
Cinehysterosalpinography and television fluoroscopy, observation of uterine contractility by (Siegler and Margulies), 1174
Circulation, placental, studies in (Aladjem), 88

III. Interstitial fluid volume control (Douglas, Coleman, and Whittington-Coleman), 984
Classic pages, 318, 648, 962, 1259
Clomid, high ovulation rate versus low pregnancy rate with, significance of (Whitelaw, Kalman, and Grams), 865
Clomiphene, alterations of LH and FSH release in rats treated with (Schally et al.), 1156
Coccidioidomycosis in pregnancy, dissemination of (Smale and Waechter), 356
Coitus, rabbit uterine contractile activity increase following (Michael and Reinke), 453
Communications in brief, 319-333, 649-654, 963-975, 1262-1268
Conception(s) control, monthly injection for, clinical evaluation of (Keifer, Lee, and Scott), 400
evidence for drop in, in Big Blackout (Menaker), 804 (Current opinion)
Conization, cervical, and hysterectomy, time interval between (Williams, Johnson, and Pratt), 790
Contraception by means of Silastic vaginal ring impregnated with medroxyprogesterone acetate (Mishell et al.), 100
steroid, long-term, subcutaneous Silastic capsules for, use of (Tejuja), 954 (Current investigation)
Contraceptive(s), evaluation of injectable progestin-estrogen as (Scommegna, Lee, and Borushek), 1147
oral, endometrial changes in women receiving (Song, Mark, and Lawler), 717
new report on, of Advisory Committee of FDA: Comment (Goldzieher), 1106 (Current opinion)
reply to Dr. Goldzieher's comment (Hellman), 1109 (Current opinion)
one dose a month, trial of (Claman), 461
women with subclinical diabetes receiving, blood glucose levels and glucose tolerance in (Goldman and Eckerling), 325 (Comm. in brief)
Contractile activity, uterine, rabbit, increase following coitus (Michael and Reinke), 453
in presence of intrauterine device (Michael and Reinke), 188
Contractility of human myometrium in vitro, effects of exogenous amines on quantitative evaluation of (Sullivan and Marshall), 139
Cord around neck, influence of, on fetal acid-base balance in vigorous newborn infants (Arto-Medrano), 1035
umbilical, blood, pH value of, and fetal distress (Debdas and Chowdhury), 1044
prolapse of (Vago), 967 (Comm. in brief)
Correspondence, 1269

XUM

Cortisol and 17-ketosteroids, secretion of, in dog, effects of chorionic and human postmenopausal gonadotropins on (Cushman), 519
Coumarin derivatives in pregnancy, fetal deaths and malformations associated with use of (Bloomfield), 883
Cryocoagulation of endometrium, preliminary observations of (Droegemueller, Greer, and Makowski), 958 (Current investigation)
Cryosurgical treatment of premalignant disease of uterine cervix (Crisp et al.), 737

Electrocardiogram, maternal, recorded during labor and delivery, study of (Upshaw), 17
Embryonal rhabdomyosarcoma (botryoid type) of vagina (Hilgers, Malkasian, and Soule), 484 (Current developments)
Embryonic development, early, failure of large doses of ethinyl estradiol to interfere with, in human species (Bačič, De Casparis, and Diczfalusy), 531
Endocrine studies in arrhenoblastoma (Mahesh, McDonough, and Deleo), 183
Endometrial adenocarcinoma, survival of patients with, factors affecting (Sall, Sonnenblick, and Stone), 116
  carcinoma in patients with bilateral oophorectomy or irradiation castration (Hofmeister and Vondrak), 1099
  changes in women receiving oral contraceptives (Song, Mark, and Lawler), 717
  mast cell count and bleeding in women following insertion of intrauterine device, relationship between (Mehra et al.), 852
  neoplasia, fibrinolytic activity in (Zeller, Okagaki, and Richart), 1071
  stromal malignancy with ovarian theca cell tumor, concurrence of (Toker), 505
Endometriosis. I. Conservative operations (Ranney), 743
Endometrium, cryocoagulation of, preliminary observations of (Droegemueller, Greer, and Makowski), 958 (Current investigation)
  lymphoid follicles of, in women wearing intrauterine device (Ishihama and Makino), 535
  oviducts and, postpartum bacteriology of (Spore et al.), 572
Enzyme tests, several, evaluation of, in vaginal fluid as aids to diagnosis of invasive and preinvasive cancer (Goldberg, Watts, and Hart), 465
Epidemic of gram-negative organism septicemia subsequent to elective operation (Sack), 394
Epinephrine and norepinephrine, role in identification of pressor substance in amniotic fluid (Zuspan), 664
Erythroblastosis fetalis, slide rule for management of (Burrows), 651 (Comm. in brief)
Estradiol-17β, influence of, on acetylcholine content of lung of rabbit neonate (Abdul-Karim, Marshall, and Nesbitt), 641
  ethinyl, failure of large doses, to interfere with early embryonic development in human species (Bačič, De Casparis, and Diczfalusy), 531
Estriol excretion in normal and complicated pregnancies (Easterling and Talbert), 417
Estrogen formation in vitro by fetal liver, fetal adrenal gland, and placenta of early human pregnancy (Wu et al.), 313
  therapy and glucose tolerance (di Paola, Robín, and Nicholson), 124
  urinary pregnancy, assay, evaluation of (Scommegna), 1260 (Comm. in brief)
  -progestin, injectable, evaluation as contraceptive (Scommegna, Lee, and Borushek), 1147
Ethacrynic acid, treatment of pulmonary edema with, during labor (Young and Haft), 330 (Comm. in brief)
Ethanol, effect of, on maternal and fetal acid-base balance (Dilts), 1018
  placental transfer of (Dilts), 1195
Ethinyl estradiol, failure of large doses of, to interfere with early embryonic development in human species (Bačič, De Casparis, and Diczfalusy), 531

Ethology in teaching of obstetrics and gynecology (Cailleouette), 376
Eunuchoidal females, presence of dysgenetic testes in (Boczkowski), 319 (Comm. in brief)
Evisceration, vaginal (Rolf), 369
Excretion, estriol, in normal and complicated pregnancies (Easterling and Talbert), 417
Exogenous amines, effects of, on contractility of human myometrium in vitro, quantitative evaluation of effects of (Sullivan and Marshall), 139

F

Familial gonadal dysgenesis (Perez-Ballester, Greenblatt, and Byrd), 1261 (Comm. in brief)
Feminization, testicular, syndrome (Weisberg, Malkasian, and Pratt), 1181
Fertilization process and human ova, observations on (Mastroianni and Noriega), 682
Fertilizing gametes, aging of, and spontaneous abortion (Guerrero and Lanctot), 263
Fetal acid-base balance in vigorous newborn infants, influence of cord around neck (Arto-Medrano), 1035
experiences in assessing (Simonson, Schoen, and Boyd), 754
asphyxia, use of drugs to protect against (Goodlin and Lloyd), 227
blood sampling, complications of (Balfour et al.), 288
reliability of (Bowe et al.), 279
deaths and malformations associated with coumarin derivatives in pregnancy (Bloomfield), 883
term intrapartum (Lilien), 595
distress, chronic, in hypertensive disorders of pregnancy, amniography studies of (McLain and Russell), 673
and pH value of umbilical cord blood (Debdas and Chowdhury), 1044
heart rate during breech delivery (Teteris et al.), 762
tone monitoring system, multiple-channel, for routine clinical use (Bartolucci and Webb), 921
life, prolonged monitoring of physiologic functions during, method for (Joelsson et al.), 445
liver, fetal adrenal gland, and placenta of early human pregnancy, estrogen formation in vitro by (Wu et al.), 313
monkey during labor, arterial, venous, and capillary blood of, composition of, comparison of (Adamsons, Beard, and Myers), 435
presenting part, station of (Friedman and Sachtleben), 1031
response to hypoxia, effect of glucose loading on (Mann, Prichard, and Symmes), 610
Fetoplacental function, assessment of, by hormone assay (Klopper), 807 (Current developments)
Fetus and amniotic fluid, transplacental passage of methicillin and dicloxacillin into (Depp et al.), 1054
Fever, posttransfusion, delayed, cytomegaloviremia as cause of (O'Neill and Schwarz), 970 (Comm. in brief)
Fibrinolytic activity in cervical and endometrial neoplasia (Zeller, Okagaki, and Richart), 1071
local, in pregnant uterus (Basu and Jeffcoate), 1188
Fistula(s), cystouterine, following cesarean section with discharge of menstrual blood per urethram (Sammour), 321 (Comm. in brief)
vesicovaginal, obstetric (Gray), 898
Fluid, amniotic, spectrophotometric analysis of, in anencephalic pregnancies (Lee and Wei), 917
interstitial, pressure changes (Douglas et al.), 878
volume control in pregnancy (Douglas, Coleman, and Whittington-Coleman), 984
peritoneal, free, benign ovarian stromal tumors associated with (Samanth and Black), 538
shifts following saline infusion (Douglas and Coleman), 551
Fluid—Cont'd
vaginal, evaluation of several enzyme tests in, as aids to diagnosis of invasive and preinvasive cancer (Goldberg, Watts, and Hart), 465
from women with and without gynecologic cancer, modified assay for 6-phosphogluconate dehydrogenase in samples of (Rees et al.), 857
Fluoride and calcium, placental transfer of (Armstrong, Singer, and Makowski), 432
Fluoroscopy, television, and Cinehysterosalpingography, observations of uterine contractility by (Siegler and Margulies), 1174
Foley catheter or suprapubic tube (Hofmeister, Martens, and Strebel), 767
Follicles, lymphoid, of endometrium of women wearing intrauterine device (Ishihama and Makino), 535
FSH and LH release, alterations of, in rats treated with clomiphene or its isomers (Schally et al.), 1156

G

Gametes, fertilizing, aging of, and spontaneous abortion (Guerrero and Lanctot), 263
Generation, new (Douglas), 150 (Current opinion)
Genetic and interracial aspects of hypertensive toxemia of pregnancy (Gordon et al.), 254
Glands, suprarenal, lesions of, in pre-eclampsia and eclampsia demonstrated in biopsy material (Attia et al.), 889
Glucose infusion, hypertonic, during labor (Cordero et al.), 295
(Cordero, Grunt, and Anderson), 560
levels, blood, and glucose tolerance in women with subclinical diabetes receiving oral contraceptive (Goldman and Eckerling), 325 (Comm. in brief)
loading, effect of, on fetal response to hypoxia (Mann, Prichard, and Symmes), 610
plasma levels of, effect of arginine infusion on, during pregnancy and puerperium (Samaan, Goplerud, and Bradbury), 1002
tolerance tests, estrogen therapy and (di Paola, Robín, and Nicholson), 124
Glucose-6-phosphate dehydrogenase, unicellular histogenesis of uterine leiomyomas as determined by electrophoresis of (Townsend et al.), 1168
Glycogen deposition in vagina of squirrel monkey, effect of progesterone and progesterone-estrogen on (Bo), 524
mucosubstances and, histochemical study of, of postmenopausal cervix uteri (Tock and Shilkin), 194
Gonadal dysgenesis, clinical and cytogenetic variations of, in 3 patients (Weber, Muller, and Sparkes), 1092
familial (Perez-Ballester, Greenblatt, and Byrd), 1262 (Comm. in brief)
Gonadotropins, postmenopausal, chorionic and human, effects of, on secretion of cortisol and 17-ketosteroids in dog (Cushman), 519
Growth hormone, plasma levels of, effect of arginine infusion on, during pregnancy and puerperium (Samaan, Goplerud, and Bradbury), 1002

H

Heart rate, fetal during breech delivery (Teteris et al.), 762
tone monitoring system, fetal, multiple-channel, for routine clinical use (Bartolucci and Webb), 921
Hemorrhage, hepatic, in toxemia of pregnancy (Castañeda, García-Romero, and Cantó), 578
Hepatic hemorrhage in toxemia of pregnancy (Castañeda, García-Romero, and Cantó), 578
metabolism of androgens in rat, induced alterations in (Fahim et al.), 1085
Hernia, diaphragmatic, fetal, intrauterine diagnosis of, by amniography (Agüero and Zighelboim), 971 (Comm. in brief)

XUM

Herpesvirus, genital, antibodies to, in patients with carcinoma of cervix (Rawls, Gardner, and Kaufman), 710
HGH studies, normal lactation and (Spellacy, Buhi, and Birk), 244
Histogenesis, unicellular, of uterine leiomyomas as determined by electrophoresis of glucose-6-phosphate dehydrogenase (Townsend et al.), 1168
Hormone assay, assessment of fetoplacental function by (Klopper), 807 (Current developments)
excretion in abnormal pregnancy, patterns of (Ginsburg, Bell, and Loraine), 1205
ovarian, effect of, on uterine vascular bed (Greiss and Anderson), 829
studies, blood glucose, normal lactation and (Spellacy, Buhi, and Birk), 244
Human placental lactogen, measurement of, by microcomplement fixation (Varma et al.), 472 (Current investigation)
and placental proteins from other species, immunochemical comparison of (Gusdon et al.), 441
postmenopausal gonadotropins, chorionic and, effects of, on secretion of cortisol and 17-ketosteroids in dog (Cushman), 519
Hydatid disease of female pelvis (Bickers), 477 (Current opinion)
Hydatidiform moles, serum protein changes in (Pascasio et al.), 972 (Comm. in brief)
Hypercarbia, maternal, effect of, on newborn infant (Ivankovic, Elam, and Huffman), 939
Hypertension, pregnancy and, effect of, on reticuloendothelial activity (Douglas and Grogan), 44
Hypertensive disorders of pregnancy, chronic fetal distress in, amniography studies in (McLain and Russell), 673
toxemia of pregnancy, genetic and interracial aspects of (Gordon et al.), 254
Hypertonic glucose infusion during labor (Cordero et al.), 295
(Cordero, Grunt, and Anderson), 560
saline-induced labor, spontaneous, oxytocin-induced, and, comparison of, by different methods of record analysis (Johnson, Depp, and Hunter), 268
Hypertrophy, placental, associated with chorangioma (Sen), 652 (Comm. in brief)
Hypoplasia, adrenal, severe, in normocephalic live-born infant with neurohypophyseal aplasia (Aimone and Campagnoli), 327 (Comm. in brief)
Hypoxia, effect of, on trophoblast in organ culture (Fox), 1058
fetal response to, effect of glucose loading on (Mann, Prichard, and Symmes), 610
Hysterectomy and cervical conization, time interval between (Williams, Johnson, and Pratt), 790
cesarean (Patterson), 717

I

Immunization of young adult females with Cindehill strain rubella vaccine (Hildebrandt and Weber), 645 (Current investigation)
Immunochemical comparison of human placental lactogen and placental proteins from other species (Gusdon et al.), 441
Immunologic properties of alkaline phosphatase from human placenta and membranes at delivery (Neri and Korngold), 1047
Infant, breech, large, management of (Neilson), 345
care, maternity and (MIC) project, experience with (Moore), 362
newborn, effect of maternal hypercarbia on (Ivankovic, Elam, and Huffman), 939
Inferior vena cava occlusion, instrument to relieve (Kennedy), 331 (Comm. in brief)
Injection, monthly, for conception control, clinical evaluation of (Keifer, Lee, and Scott), 400
Innervation of human umbilical artery (Nadkarni), 303
Instrument to relieve inferior vena cava occlusion (Kennedy), 331 (Comm. in brief)
Insulin, plasma levels of, effect of arginine infusion on, during pregnancy and puerperium (Samaan, Goplerud, and Bradbury), 1002
Interferon production, maternal and fetal, in rat (Mendelson, Kapusta, and Dick), 902
Internship today and in future and why (Langley), 384
Interracial aspects of hypertensive toxemia of pregnancy, genetic and (Gordon et al.), 254
Interstitial fluid pressure changes (Douglas et al.), 878
Intramyometrial injection of procaine in pregnant women, oxytocic effect of (Belitsky, Delard, and Novick), 973 (Comm. in brief)
Interauterine device, endometrial mast cell count and bleeding following insertion of, relationship of (Mehra et al.), 852
lymphoid follicles of endometrium of women wearing (Ishihama and Makino), 535
rabbit uterine contractility in presence of (Michael and Reinke), 188
diagnosis of fetal diaphragmatic hernia by ammiography (Agüero and Zighelboim), 971 (Comm. in brief)
transfusion, effect of, on maternal urinary estrogen excretion (Carpenter), 69
Irradiation castration, endometrial carcinoma in patients with (Hofmeister and Vondrak), 1099
Items, 182, 503, 828, 1131

K

17-Ketosteroids, cortisol and, in dog, secretion of, effects of chorionic and human postmenopausal gonadotropins on (Cushman), 519

L

Labor and delivery, maternal electrocardiogram recorded during (Upshaw), 17
fetal monkey during, composition of arterial, venous, and capillary blood, comparisons of (Adamsons, Beard, and Myers), 435
hypertonic glucose infusion during (Cordero et al.), 295
(Cordero, Grunt, and Anderson), 560
premature, induction of, placental acetylcholine in (Goodlin), 429
spontaneous, oxytocin-stimulated, and hypertonic saline-induced, comparison of, by different methods of record analysis (Johnson, Depp, and Hunter), 268
surgical induction of (MacDonald), 908
temperature relationship of mother and fetus during (Walker and Wood), 83
treatment of pulmonary edema with ethacrynic acid during (Young and Haft), 330 (Comm. in brief)
Lactation, normal, and blood growth hormone studies (Spellacy, Buhi, and Birk), 244
Lactogen, human placental, measurement of, by complement fixation (Varma et al.), 472 (Current investigation)
and placental proteins form other species, immunochemical comparison of (Gusdon et al.), 441
Leiomyomas, uterine, unicellular histogenesis of, as determined by electrophoresis of glucose-6-phosphate (Townsend et al.), 1168
Lesions of suprarenal glands in pre-eclampsia and eclampsia demonstrated in biopsy material (Attia et al.), 889
Leukocyte(s) alkaline phosphatase in pregnancy and puerperium (Polishuk et al.), 604
human, chromosomes of, effect of diazepam on, in vivo (Stenchever, Frankel, and Jarvis), 456

XUM

LH and FSH release, alteration of, in rat treated with clomiphene or its isomers (Schally et al.), 1156
Ligation, tubal, method of (Barr), 324
Lipofuscin, uterine, in squirrel monkey (Saimiri scuirea), significance of (Graham), 837
Liquor amnii, rhesus antibodies in, significance of (Dalton), 925
Liver, fetal, adrenal gland, fetal, and placenta of early human pregnancy, estrogen formation in vitro by (Wu et al.), 313
Lung of rabbit neonate, acetylcholine content of, influence of estradiol-17β on (Abdul-Karim, Marshall, and Nesbitt), 641
Lupus erythematosus, systemic, in pregnancy (McGee and Makowski), 1008
Lymphoid follicles of endometrium of women wearing intrauterine device (Ishihama and Makino), 535

M

Malignancy, endometrial stromal, with ovarian theca cell tumor, concurrence (Toker), 505
Malnutrition, protein-calorie, with toxemia of pregnancy, relationship of (Chaudhuri), 33
Manchester operation, extended (O'Leary and O'Leary), 546
Mast cell count, endometrial, and bleeding in women following insertion of intrauterine device, relationship between (Mehra et al.), 852
Maternal electrocardiogram recorded during labor and delivery, study of (Upshaw), 17
Maternity and infant care (MIC) project, experience with (Moore), 362
Medroxyprogesterone acetate, Silastic vaginal ring impregnated with contraception by means of (Mishell et al.), 100
Membranes and placenta at delivery, human, immunologic properties of alkaline phosphatase from (Neri and Korngold), 1047
Menstrual blood, discharge of, per urethram, cystouterine fistula following cesarean section with (Sammour), 321 (Comm. in brief)
Mestranol alone or with norethynodrel, failure of, to prepare for generalized Shwartzman reaction in rats (Phillips, Calhoun, and Soloway), 210
Metabolic adjustment before new pregnancy, significance of (Navarrete et al.), 250
rate in newborn guinea pig, THAM and (Towell, Pardi, and Adamsons), 77
Metabolism, acid-base, maternal, in normal human parturition (Cohen, Schulman, and Romney), 933
gaseous, blood flow and, of rabbit uterus during pregnancy (Cotter, Blechner, and Prystowsky), 411
Metastatic ovarian tumors (Woodruff et al.), 202
Methicillin and dicloxacillin, transplacental passage of, into fetus and amniotic fluid (Depp et al.), 1054
Methotrexate and dactinomycin, effect of, on transplantable malignant and benign trophoblastic growths (Kawai and Hreshchyshyn), 513
Microcomplement fixation, measurement of human placental lactogen by (Varma et al.), 472 (Current investigation)
Microenvironment of trophoblastic tissue growth and invasion, role of (Koren et al.), 912
Monilial vaginitis, clinical and laboratory study of (Nagesha and Ananthakrishna), 1267 (Comm. in brief)
Monitoring, prolonged, of physiologic functions, method for, during fetal life (Joelsson et al.), 445
system, multiple-channel fetal, for routine clinical use (Bartolucci and Webb), 921
Mortality, perinatal (Gleichert), 780
Mucinous cysts of vulva, paramesonephric (Hart), 1079
Mucosubstances and glycogen, histochemical studies of, of postmenopausal human cervix uteri (Tock and Shilkin), 194
Mucus, cervical, sperm penetration of (Macdonald and Lumley), 846
Müllerian cyst of retroperitoneum (Steinberg, Rothman, and Drey), 963 (Comm. in brief)
duct aplasia, clinicopathologic study of, with special reference to cytogenetic studies (Grover, Solanki, and Banerjee), 133
Mycoplasma in uterine cervix (Gregory and Payne), 220
Myometrium in vitro, human, contractility of, quantitative evaluation of effects of exogenous amines on (Sullivan and Marshall), 139

N

Nalidixic acid, effect of, on human chromosome integrity (Stenchever, Powell, and Jarvis), 329 (Comm. in brief)
Neoplasia, cervical and endometrial, fibrinolytic activity in (Zeller, Okagaki, and Richart), 1071
Neurohypophyseal aplasia, live-born normocephalic infant with, severe adrenal hyperplasia in (Aimone and Campagnoli), 327 (Comm. in brief)
Neurologic complications in pheochromocytoma of pregnancy (Weintraub, Manning, and Kinkel), 423
Norepinephrine and epinephrine, role of, in identification of pressor substance in amniotic fluid (Zuspan), 664
Norethynodrel, mestranol alone or with, failure of, to prepare for generalized Shwartzman reaction in rats (Phillips, Calhoun, and Soloway), 210

oxygen consumption in vitro. IV. Variations with Apgar score (Friedman et al.), 1
V. Hypertensive disorders (Friedman et al.), 274
proteins, human placental lactogen and, from other species, immunochemical comparison of (Gusdon et al.), 441
transfer of fluoride and calcium (Armstrong, Singer, and Makowski), 432
of ethanol (Dilts), 1195
Plasma amino acid alterations during teen-age pregnancy (Dawson and McGanity), 585
Pluronic F-68 (industrial surfactant), influence of, on human amniotic fluid embolism (Hymes, Robb, and Margulis), 1217
Postdoctoral training in obstetrics and gynecology: Panel discussion, 383-393
Postmenopausal gonadotropins, chorionic and human, effects of, on secretion of cortisol and 17-ketosteroids in dog (Cushman), 519
human cervix uteri, histochemical study of mucosubstances and glycogen of (Tock and Shilkin), 194
Postpartum bleeding, delayed (Thorsteinsson and Kempers), 565
oviducts and endometrium, bacteriology of (Spore et al.), 572
Pre-eclampsia and related complications of pregnancy (Sims), 154 (Current developments)
Pregnancy(ies), abnormal, patterns of hormone excretion in (Ginsburg, Bell, and Loraine), 1205
anencephalic, spectrophotometric analysis of amniotic fluid in (Lee and Wei), 917
cervical incompetence during, simple midcervical cerclage operation for (Shaalan), 969 (Comm. in brief)
circulatory dynamics of. I. Fluid shifts following saline infusion (Douglas and Coleman), 551
II. Interstitial fluid pressure changes (Douglas et al.), 878
III. Interstitial fluid volume control (Douglas, Coleman, and Whittington-Coleman), 984
coccidioidomycosis in, dissemination of (Smale and Waechter), 356
combined (Ross and Gunther), 1263 (Comm. in brief)
coumarin derivatives in, fetal deaths and malformations associated with, use of (Bloomfield), 883
estrogen assay, urinary, evaluation of (Scommegna), 1260 (Comm. in brief)
high-risk, management of (Echt and Cohen), 947
and hypertension, effect of, on reticuloendothelial activity (Douglas and Grogan), 44
hypertensive disorders of, chronic fetal distress in, amniography studies of (McLain and Russell), 673
new, metabolic adjustment before, significance of (Navarrete et al.), 250
normal and abnormal, cytohormonal and interhormonal relationships in (Aubry and Nesbitt), 990
estriol excretion in (Easterling and Talbert), 417
pheochromocytoma of, neurological complications of (Weintraub, Manning, and Kinkel), 423
pre-eclampsia and related complications of (Sims), 154 (Current developments)
protein ingestion in, some physiologic effects of (Tyson and Merimee), 797 (Current investigation)
and puerperium, leukocyte alkaline phosphatase in (Polishuk et al.), 604
rabbit uterus during, blood flow and gaseous metabolism of (Cotter, Blechner, and Prystowsky), 411
rate, low, with Clomid, high ovulation rate versus, significance of (Whitelaw, Kalman, and Grams), 865
systemic lupus erythematosus in (McGee and Makowski), 1008

Pregnancy—Cont'd
teen-age, plasma amino acid alterations during (Dawson and McGanity), 585
thromboembolic disease in (Weekes and Deukmedjian), 649 (Comm. in brief)
toxemia of, hepatic hemorrhage in (Castañeda, García-Romero, and Cantó), 578
hypertensive, genetic and interracial aspects of (Gordon et al.), 254
Pregnant uterus, local fibrinolytic activity in (Basu and Jeffcoate), 1188
Premalignant disease of uterine cervix, cryosurgical treatment of (Crisp et al.), 737
Pressor substance in amniotic fluid, identification of, role of epinephrine and norepinephrine in (Zuspan), 664
Problems, three major, faced by specialty in 1970 (Hofmeister), 657
Procaine, intramyometrial injection of, in pregnant woman, oxytocic effect of (Belitsky, Delard, and Novick), 973 (Comm. in brief)
Progesterone and progesterone-estrogen, effect of, on glycogen deposition in vagina of squirrel monkey (Bo), 524
-estrogen, progesterone and, effects of, on glycogen deposition in vagina of squirrel monkey (Bo), 524
Progestin-estrogen, injectable, evaluation of, as contraceptive (Scommegna, Lee, and Borushek), 1147
Prolapse of umbilical cord (Vago), 967 (Comm. in brief)
Prostaglandins in reproductive physiology (Speroff and Ramwell), 1111 (Current developments)
Protein changes, serum, in hydatidiform moles (Pascasio et al.), 972 (Comm. in brief)
ingestion in pregnancy, and physiologic effects of (Tyson and Merimee), 797 (Current developments)
placental, human placental lactogen and, from other species, immunochemical comparison (Gusdon et al.), 441
-calorie malnutrition with toxemia of pregnancy, relationship of (Chaudhuri), 33
Pseudocyesis, case of, caused by "roots" (Kimball), 801 (Current opinion)
Puerperium, pregnancy and, leukocyte alkaline phosphatase in (Polishuk et al.), 604
Pulmonary edema, treatment of, with ethacrynic acid during labor (Young and Haft), 330 (Comm. in brief)

R

Record analysis, different methods of, comparison of spontaneous, oxytocin-stimulated, and hypertonic saline-induced labor by (Johnson, Depp, and Hunter), 268
Reproductive physiology, prostaglandins in (Speroff and Ramwell), 1111 (Current developments)
Residency education in obstetrics and gynecology, length, breadth, and substance (Moore), 387
evaluation of (Russell), 385
Reticuloendothelial activity, effect of pregnancy and hypertension on (Douglas and Grogan), 44
Retroperitoneum, Müllerian cyst of (Steinberg, Rothman, and Drey), 963 (Comm. in brief)
Rh antibodies, passive, antepartum and postpartum use (Clayton, Waller, and Foster), 704
Rhabdomyosarcoma, embryonal (botryoid type) of vagina (Hilgers, Malkasian, and Soule), 484 (Current developments)
Rhesus antibodies in liquor amnii, significance of (Dalton), 925
"Roots," case of pseudocyesis caused by (Kimball), 801 (Current opinion)
Rubella vaccine, Cindehill strain of, immunization of young adult females with (Hildebrandt and Weber), 645 (Current investigation)

S

Saline infusion, fluid shifts following (Douglas and Coleman), 551
Scalp pH, fetal, evaluation of, with proposed new clinical assessment of neonate (de la Rama and Merkatz), 93
Scar formation in uterus after cesarean section (Wojdecki and Grynsztajn), 322 (Comm. in brief)
Scleroderma of uterine cervix (Stenchever and Ng), 965 (Comm. in brief)
Septicemia, gram-negative organism, epidemic of, subsequent elective operation (Sack), 394
Serum protein changes in hydatidiform moles (Pascasio et al.), 972 (Comm. in brief)
Sex chromosome mosaicism in 3 sibs (Goldstein et al.), 108
Short leg syndrome in obstetrics and gynecology (Sicuranza, Richards, and Tisdall), 217
Silastic capsules, subcutaneous, for long-term steroid contraception (Tejuja), 954 (Current investigation)
vaginal ring impregnated with medroxyprogesterone acetate, contraception by means of (Mishell et al.), 100
Slide rule for management of erythroblastosis fetalis (Burrows), 651 (Comm. in brief)
Slope of descent of fetal presenting part (Friedman and Sachtleben), 1031
Spectrophometric analysis of amniotic fluid in anencephalic pregnancies (Lee and Wei), 917
Sperm penetration of cervical mucus (Macdonald and Lumley), 846
Station of fetal presenting part. IV. Slope of descent (Friedman and Sachtleben), 1031
Sterilization, tubal, accompanying cesarean section, failure of (Husbands, Pritchard, and Pritchard), 966 (Comm. in brief)
Steroid contraception, long-term, subcutaneous Silastic capsules for use of (Tejuja), 954 (Current investigation)
-drug interaction in pregnant rat, fetus, and neonate (Fahim et al.), 1250
Stromal malignancy, endometrial, with ovarian theca cell tumor, concurrence of (Toker), 505
tumors, ovarian, benign, association with free peritoneal fluid (Samanth and Black), 538
Suprapubic trocar cystostomy (Beck), 349
tube or Foley catheter? (Hofmeister, Martens, and Strebel), 767
Suprarenal glands, lesions of, in pre-eclampsia demonstrated in biopsy material (Attia et al.), 889
Surfactant, industrial (pluronic F-68), influence of, on human amniotic fluid embolism (Hymes, Robb, and Margulis), 1217
Surgical induction of labor (MacDona'd), 908
Survival of patients with adenocarcinoma, factors affecting (Sall, Sonnenblick, and Stone), 116
Syndrome, short leg, in obstetrics and gynecology (Sicuranza, Richards, and Tisdall), 217
testicular feminization (Weisberg, Malkasian, and Pratt), 1181

T

Teen-age pregnancy, plasma amino acid alterations during (Dawson and McGanity), 585
Television fluoroscopy and cinehysterosalpingography, observations of uterine contractility by (Siegler and Margulies), 1174
Temperature relationship of mother and fetus during labor (Walker and Wood), 83
Testicular feminization syndrome (Weisberg, Malkasian, and Pratt), 1181
Testes, dysgenetic, in eunuchoidal females, presence of (Boczkowski), 319 (Comm. in brief)
THAM and metabolic rate in newborn guinea pig (Towell, Pardi, and Adamsons), 77

XUM

Theca cell tumor, ovarian, endometrial stromal malignancy with, concurrence (Toker), 505
Thromboembolic disease in pregnancy (Weekes and Deukmedjian), 649 (Comm. in brief)
Tissue, trophoblastic, growth and invasion, role of microenvironment in (Koren et al.), 912
Toxemia, cardiovascular alterations in (Smith), 979
of pregnancy, hepatic hemorrhage in (Castañeda, García-Romero, and Cantó), 578
hypertensive, genetic and interracial aspects of (Gordon et al.), 254
protein-calorie malnutrition with, relationship of (Chaudhuri), 33
Transactions of thirty-sixth annual meeting of Pacific Coast Obstetrical and Gynecological Society, 337-410
of thirty-seventh annual meeting of Central Association of Obstetricians and Gynecologists, 657-796
Transfusion, intrauterine, effect of, on maternal urinary estrogen excretion (Carpenter), 69
Transplacental passage of pesticides (O'Leary et al.), 65
Tris infusions, bicarbonate and, amniotic fluid, changes in rhesus monkey fetal and maternal acid-base measurements following (Seeds et al.), 232
Trocar cystostomy, suprapubic (Beck), 349
Trophoblast, effect of hypoxia on, in organ culture (Fox), 1058
Trophoblastic growths, transplantable malignant and benign, effect of methotrexate and dactinomycin on (Kawai and Hreshchyshyn), 513
tissue growth and invasion, role of microenvironment in (Koren et al.), 912
Tubal ligation, method of (Barr), 324
sterilization accompanying cesarean section, failure of (Husbands, Pritchard, and Pritchard), 966 (Comm. in brief)
Tumors, ovarian, metastatic (Woodruff et al.), 202
stromal benign, associated with free peritoneal fluid (Samanth and Black), 538
theca cell, endometrial stromal malignancy with, concurrence of (Toker), 505

U

Umbilical artery, human, innervation of (Nadkarni), 303
cord, prolapse of (Vago), 967 (Comm. in brief)
Urinary estrogen excretion, maternal, effect of intrauterine transfusion on (Carpenter), 69
urinary estrogen assay, evaluation of (Scommegna), 1260 (Comm. in brief)
Urine levels, blood and, of vitamin B_6 in mother and fetus before and after loading of mother with vitamin B_6 (Contractor and Shane), 635
Uterine arteries and veins of multiparous rats, vascular degenerative changes in (Wexler), 6
blood flow, influence of, on acid-base status of rhesus monkey (Parer and Behrman), 1241
Uterine—Cont'd
cervix, Mycoplasma in (Gregory and Payne), 220
premalignant disease of, cryosurgical treatment of (Crisp et al.), 737
contractile activity, rabbit, increase following coitus (Michael and Reinke), 453
in presence of intrauterine device (Michael and Reinke), 188
observation of, by cinehysterosalpingography and television fluoroscopy (Siegler and Margulies), 1174
in pregnant women, effects of some vasopressor drugs on (Sentíes et al.), 892
lipofuscin in squirrel monkey (Saimiri sciurea), significance of (Graham), 837
vascular bed, effect of ovarian hormones on (Greiss and Anderson), 829
Uterus, pregnant, local fibrinolytic activity in (Basu and Jeffcoate), 1188
rabbit, during pregnancy, blood flow and gaseous metabolism of (Cotter, Blechner, and Prystowsky), 411
scar formation in, after cesarean section (Wojdecki and Grynsztajn), 322 (Comm. in brief)

V

Vagina, embryonal rhabdomyosarcoma (botryoid type) of (Hilgers, Malkasian, and Soule), 484 (Current developments)
of squirrel monkey, glycogen deposition in, effect of progesterone and progesterone-estrogen on (Bo), 524
Vaginal deliveries and cesarean sections, cardiovascular changes in (Niswonger and Langmade), 337
evisceration (Rolf), 369
fluid, evaluation of several enzyme tests in, as aids to diagnosis of invasive and preinvasive cancer (Goldberg, Watts, and Hart), 465
from women with and without gynecologic cancer, modified assay of 6-phosphogluconate dehydrogenase in samples of (Rees et al.), 857
Vaginitis, monilial, clinical and laboratory study (Nagesha and Ananthakrishna), 1267 (Comm. in brief)
Vascular bed, uterine, effect of ovarian hormones on (Greiss and Anderson), 829
degenerative changes in uterine arteries and veins of multiparous rats (Wexler), 6
Vasopressor drugs, some effects of, upon uterine contractility in pregnant women (Sentíes et al.), 892
Veins, arteries and, of multiparous rats, vascular degenerative changes in (Wexler), 6
Vesicovaginal fistulas, obstetric (Gray), 898
Vitamin B_6, blood and urine levels of, in mother and fetus after loading of mother with (Contractor and Shane), 635
Vulva, paramesonephric mucinous cysts of (Hart), 1079

Subject index*

A

Abdominal emergency, acute, spontaneous rupture of endometrial cysts of ovary presenting as (Pratt and Shamblin), 56
Abortifacient and teratogenic effects of triacetyl-6-azauridine in monkey (van Wagenen et al.) 272
Abortion(s), hypertonic saline–induced, relationship between progesterone, uterine volume, intrauterine pressure, and clinical progress in (Csapo, Sauvage, and Wiest), 950
induced, sex ratio in human embryos obtained from, histological examination of gonad in 1,452 cases (Lee and Takano), 1294 (Comm. in brief)
saline versus glucose as hypertonic solution for (Droegemueller and Greer), 606
spontaneous, and human pesticide residues of DDT and DDE (O'Leary, Davies, and Feldman), 1291 (Comm. in brief)
therapeutic, of normal pregnancies, frequency of pathologic changes in young human chorion in (Jurkovič and Muzelák), 382
Acid-base chemistries, fetal, changes in, following THAM or bicarbonate infusions in fetal circulation or amniotic fluid (Seeds et al.), 1245
studies, perinatal, validity of buffer base and base excess (Rooth and Thalme), 282
Acetone precipitates and kaolin extracts of human urine, immunoreactive luteinizing hormone in (Baghdassarian et al.), 1178
Acidosis, maternal metabolic, oxygenation of human fetus and newborn infant during (Blechner et al.), 47
Action line method of timing intervention in rhesus isoimmunization, 3 year assessment of (Whitfield), 1239
Adenoacanthomas and adenocarcinomas, uterine, comparison of clinical behavior of (Pokoly), 1080
Adenocarcinoma(s) of endometrium, hormonal therapy for, pregnancy following (O'Neill), 318 (Comm. in brief)
and adenoacanthomas, uterine, comparison of clinical behavior of (Pokoly), 1080
Adhesions, funiform myometrioparietal post-cesarean section (Denis), 674 (Comm. in brief)
Adolescent, very young, obstetrics in (Coates), 68
Adrenal cortex, human, normal, effects of clomiphene on (Kicovic and Subotic), 1077
hyperplasia, congenital, ambiguous genitals due to (Williamson), 1085
Alcohol, effect of, on premature newborn infants (Wagner, Wagner, and Guerrero), 308
Alkaline phosphatase, leukocyte, and fetal prognosis in placental dysfunction (Sadovsky et al.), 979
serum heat-stable, in pregnancy (Leroux and Perry), 235
American Gynecological Society, transactions of ninety-third annual meeting, 681-824
Amino acid(s), blood serum, of nonpregnant women who have given birth to children with gross developmental defects (Roszkowski et al.), 1213
utilization and oral contraceptives (Craft, Wise, and Briggs), 1120
Amniotic fluid antibody titers and other prognostic parameters in erythroblastosis (Gusdon et al.), 85
cells, ultrastructural observations on (Nieland, Parmley, and Woodruff), 1030
Amniotic fluid—Cont'd
or fetal circulation, THAM or bicarbonate infusions in, changes in fetal acid-base chemistries following (Seeds et al.), 1245
and fetal maturation (Henneman et al.), 302
human, proteins in, qualitative and quantitative analysis of (Fischbacher and Quinlivan), 1051
immunoglobulin G levels and titers of specific antiviral antibodies in (Monif and Mendenhall), 643
proteins in normal and Rh-sensitized pregnancies (Queenan et al.), 406
spectrophotometric analysis of, in early gestation (Niswander), 1296 (Comm. in brief)
spectrophotometry, predictive value (Cassady and Barnett), 1010
Androgen excretion, urinary, in normal pregnancy, studies of (Longhino et al.), 364
Anesthesia, peridural, evaluation of, in outpatient culdoscopy (Doğu and Dorsch), 468
Anorexia nervosa, induction of ovulation and pregnancy in patients with (Hart, Kase, and Kimball), 580
Anovulation, chronic familial, metabolism of ovarian steroids in patient with (Ances, Haskins, and Ganis), 1130
Antibodies, specific antiviral, titers of, and immunoglobulin G levels, in amniotic fluid (Monif and Mendenhall), 643
Antibody to placental protein, naturally occurring, in human pregnancy (Gusdon, Leake, and Burt), 1056
Anti-mouse placental serum, purification and fractionation (Koren, Srivannaboon, and Behrman), 666
Artery, umbilical, single, genesis of (Monie), 400
Asphyxiated fetal primate, distribution of circulation in Behrman et al.), 956
Auditory stress, continuous, studies on polycystic ovaries of rats under (Singh and Rao), 557
Autoantibodies, human male, localization of, on spermatozoa (Fjallbränt), 550
Autoradiographic analysis of cell proliferation kinetics in human genital tissues (Averette, Weinstein, and Frost), 8

B

Bacteria, ability of cervical mucus to act as barrier against (Enhörning, Huldt, and Melén), 532
Bactericidal and metabolic activities of leukocytes from pregnant women (Mitchell et al.), 805
Bacteriuria, screening test for, comparative study (Billinson and Aubry), 988 (Comm. in brief)
Base excess and buffer base, validity of, in perinatal acid-base studies (Rooth and Thalme), 282
Bicarbonate or THAM infusions in fetal circulation or amniotic fluid, changes in fetal acid-base chemistries following (Seeds et al.), 1245
Biochemical and electron microscopic patterns of normal and malignant trophoblast (Garancis et al.), 1257
Bladder, primate neonatal, absence of active transmural sodium transport in (Chez), 1290 (Comm. in brief)
Blocking agents, neuromuscular, effects of, on uterine contractions in vitro (Reier and Moster), 610
Blood, estriol concentrations in, during pregnancy (Taylor et al.), 868

*September 1, 1-176; September 15, 177-332; October 1, 333-514; October 15, 515-680; November 1, 681-846; November 15, 847-998; December 1, 999-1168; December 15, 1169-1320.

XUM

Blood—Cont'd
flow, uterine, in nonpregnant sheep, thermal aspects (Abrams et al.), 917
studies, automated collecting and measuring device for (Abrams et al.), 936
maternal and fetal, reversed relationship of oxygen affinity in (Parer), 323 (Comm. in brief)
serum amino acids of nonpregnant women who have given birth to children with gross developmental malformations (Roszkowski et al.), 1213
Book reviews, 329, 678, 996, 1298
Boston Hospital for Women, reconstructive surgery for infertility at (Young et al.), 1092
Breast engorgement, postpartum, control of, with oral contraceptives (Booker, Pahl, and Forbes), 240
Brenner's tumors of ovary, clinicopathologic study of 53 cases (Jorgensen et al.), 122
Buffer base and base excess, validity of, in perinatal acid-base studies (Rooth and Thalme), 282

C

Cancer, advanced, cross-implantation of tumor tissue and cross-transfusion in patients with (Willoughby et al.), 889
cervical, after initial negative and atypical vaginal cytology (Figge, Bennington, and Schweid), 422
of ovary (Parker, Parker, and Wilbanks), 878
Carbohydrate metabolism in experimental intrauterine growth retardation in rats (Oh et al.), 415
Carcinoma of cervix, critical evaluation of patient follow-up (Van Voorhis), 115
late recurrence (Van Herik et al.), 1183
surgical management (Collins and Allen), 441
therapeutic and patient factors affecting survival (Van Voorhis), 105
postgranulomatous epidermoid, of vulva (Hay and Cole), 479
in situ of vagina (Hummer et al.) 1109
of vulva, intraepithelial (Collins, Roman-Lopez, and Lee), 1187
Cardiac arrest and cardiovascular collapse in early puerperium (Andrews), 18 (Patient presentations panel), 18
Cardiorespiratory response to exercise during pregnancy (Charles et al.), 595
Cardiovascular collapse and cardiac arrest in early puerperium (Andrews), 18 (Patient presentations panel)
dynamics, maternal (Ueland et al.), 615
effects of oxytocic drugs used post partum (Hendricks and Brenner), 751
hemodynamics, fetal, effects of maternal hypoxia on (Brinkman et al.), 288
Catecholamines, myometrial response to, and human myometrial contractility, influence of steroids on (Stander and Barden), 795
Cell junctions in human vaginal epithelium (Burgos and Roig de Vargas-Linares), 565
proliferation kinetics in human genital tissues, autoradiographic analysis (Averette, Weinstein, and Frost), 8
Cephaloridine, therapy of female gonorrhea with (Shapiro and Lentz), 471
Cervical cancer after initial negative and atypical vaginal cytology (Figge, Bennington, and Schweid), 422
cytology in teen-age patient (Kaufman, Burmeister, and Spjut), 515
mucus, ability of, to act as barrier against bacteria (Enhörning, Huldt, and Melén), 532
in cystic fibrosis, possible cause of infertility (Oppenheimer et al.), 673 (Comm. in brief)
squamous epithelium, fine structure of normal, in vitro (Shingleton and Wilbanks), 28
Cervix, carcinoma of, critical evaluation of patient follow-up (Van Voorhis), 115
Cervix, carcinoma—Cont'd
late recurrence (Van Herik et al.), 1183
surgical management (Collins and Allen), 441
therapeutic and patient factors affecting survival (Van Voorhis), 105
uterine, human, significance of abnormal sites of DNA synthesis in certain lesions of (Rashad and Evans), 435
rhesus monkey, response of, to chronic estrogenic stimulation (Graham), 1192
and vagina, normal, cell proliferation kinetics in, autoradiographic analysis (Averette, Weinstein, and Frost), 8
Cesarean section hysterectomy, evaluation of, as sterilization procedure (Brenner, Sall, and Sonnenblick), 335
under thiopental, nitrous oxide, and succinylcholine anesthesia (Ueland et al.), 615
Children with gross developmental defects, blood serum amino acids of nonpregnant women who have given birth to (Roszkowski et al.), 1213
Cholinesterase activity in lung, influence of estradiol-17β on (Abdul-Karim, Drucker, and Jacobs), 1098
Chorion, young human, frequency of pathologic changes in, in therapeutic abortions of normal pregnancies (Jurkovič and Muzelák), 382
Chromatin, sex, count in pregnancy (Townsend, Case, and Lucas), 585
Circulation(s), distribution of, in normal and asphyxiated fetal primate (Behrman et al.), 956
fetal, or amniotic fluid, THAM or bicarbonate infusions in, changes in fetal acid-base chemistries following (Seeds et al.), 1245
maternal and fetal, in human pregnancy at term, thyroid hormone relationships between (Robin et al.), 1269
uteroplacental and fetal, effects of hydralazine on (Ladner et al.), 375
Circulatory dynamics of pregnancy, fluid accumulation (Douglas, Coleman, and Whittington-Coleman), 999
Classic pages, 316, 670, 987, 1287
Clay and starch, effect of ingestion of, on iron absorption (Talkington et al.), 262
Clomiphene, effects of, on normal human adrenal cortex (Kicovic and Subotic), 1077
Clomiphene-induced ovulation, pathophysiology of reproductive failure after (Jones et al.), 847
Clot lysis, pathologic, lack of, following gynecologic surgery (McRae and McLean), 1068
Communications in brief, 317–326, 671–677, 988–994, 1288–1297
Complement-fixing antibodies to cytomegalovirus, prevalence of, in semirural southern county (Monif, Hildebrandt, and Weber), 372
Congenital malformations, rubella in distant past as possible cause of (Plotkin and Mellman), 487 (Current opinion)
Contraception, failures of, on lower dose ethinyl estradiol sequential therapy (Miyamoto), 990 (Comm. in brief
Contraceptive(s) devices, intrauterine, endometrial leukocytes in patients using (Sedlis and Reyniak), 1209
injectable, long-acting, ovulation inhibition with, return of reproductive function after discontinuation (Yussman and Taymor), 901
oral, and amino acid utilization (Craft, Wise, and Briggs), 1120
control of postpartum breast engorgement with (Booker, Pahl, and Forbes), 240
cytogenetic studies on women using and their pregnancy (McQuarrie et al.), 659
norgestrel–ethinyl estradiol as (Hernandez-Torres and Satterthwaite), 183
practices of unmarried university students, selected aspects (Bauman), 203

Contraceptive—Cont'd
steroids, oral, and pregnancy, influence of, on concentration of plasma proteins (Song et al.), 227
Corpus luteum of term pregnancy, plasma progesterone secretion by (LeMaire et al.), 132 (Current investigation)
Correspondence, 327, 995
Cortisol levels, plasma, and cortisol binding in normal and pre-eclamptic pregnancies (Kopelman and Levitz), 925
Creatinine and urea, placental membrane permeability to (Moore and Ward), 635
Culdoscopy, outpatient, evaluation of peridural anesthesia in (Doğu and Dorsch), 468
Current developments, 149-175, 490-513, 833-846, 1141-1168
Current investigation, 128-138
Current opinion, 139-148, 485-489, 825-832, 1134-1140
Cyclamate, placental transmission and fetal distribution of, in early human pregnancy (Pitkin, Reynolds, and Filer), 1043
Cyclophosphamide, response of endometrial stromal sarcoma to (Hoovis), 1117
Cystadenoma, ovarian mucinous, virilization in pregnancy associated with (Chan and Prathap), 946
Cystic fibrosis, cervical mucus in, possible cause of infertility (Oppenheimer et al.), 673 (Comm. in brief)
Cysts, endometrial, of ovary, spontaneous rupture of, presenting as acute abdominal emergency (Pratt and Shamblin), 56
Cytogenetic studies on women using oral contraceptives and their progeny (McQuarrie et al.), 659
Cytology, cervical, in teen-age patient (Kaufman, Burmeister, and Spjut), 515
vaginal, initial negative and atypical, cervical cancer after (Figge, Bennington, and Schweid), 422
Cytomegalovirus, prevalence of complement-fixing antibodies to, in semirural southern county (Monif, Hildebrandt, and Weber), 372

D

DDE and DDT, human pesticide residues of, spontaneous abortion and (O'Leary, Davies, and Feldman), 1291 (Comm. in brief)
DDT and DDE, human pesticide residues of, spontaneous abortion and (O'Leary, Davies, and Feldman), 1291 (Comm. in brief)
induced alteration in biologic activity of estrogen by (Fahim et al.), 1063
Developmental malformations, gross, blood serum amino acids of nonpregnant women who have given birth to children with (Roszkowski et al.), 1213
Diabetes insipidus, nephrogenic type, complicating pregnancy, case report (Burstein and Chen), 1292 (Comm. in brief)
of pregnancy, Class D, plasma estriol levels in (Levitz and Selinger), 82
Diazepam, effects of, on fine structure of human fibroblasts in tissue culture (Breen and Stenchever), 520
DNA content, nuclear, of luteinized cells of human ovary (Stangel et al.), 543
synthesis, significance of abnormal sites of, in certain lesions of human uterine cervix (Rashad and Evans), 435
Dwarfism, obstetric and gynecologic considerations of (Tyson et al., 688
Dye, Evans blue T-1824, intra-amniotic injection of, premature rupture of fetal membranes confirmed by (Atlay and Sutherst), 993 (Comm. in brief)

E

Editorial announcement: appointment of two new editors (Barnes and Brewer), 333
Ehlers-Danlos syndrome, report of pregnancy and delivery in Negro (Shemwell and Weed), 321 (Comm. in brief)
Electrical activity of human uterus in labor (Sakaguchi and Nakajima), 992 (Comm. in brief)
Electron microscopic and biochemical patterns of normal and malignant trophoblast (Garancis et al.), 1257
Embryos, human, obtained from induced abortion, sex ratio in, histological examination of gonad in 1,452 cases (Lee and Takano), 1294 (Comm. in brief)
Emotional reaction to stillbirth (Wolff, Nielson, and Schiller), 73
Endocrine and renal disorders, fetal, clues to origin of hydramnios (Naeye, Milic, and Blanc), 1251
Endometrial cysts of ovary, spontaneous rupture of, presenting as acute abdominal emergency (Pratt and Shamblin), 56
leukocytes in patients using intrauterine contraceptive devices (Sedlis and Reyniak), 1209
malignancy, diverse patterns (Woodruff, Julian, and Novak), 34
stromal sarcoma, response of, to cyclophosphamide (Hoovis), 1117
Endometrium, adenocarcinoma of, hormonal therapy for, pregnancy following (O'Neill), 318 (Comm. in brief)
Endotoxin shock, experimental (Williams and Cavanagh), 1171
in primate, pathophysiology of (Cavanagh et al.), 705
Epidermoid carcinoma, postgranulomatous, of vulva (Hay and Cole), 479
Epithelium, fine structure of normal human cervical squamous, in vitro (Shingleton and Wilbanks), 28
human vaginal, cell junctions in (Burgos and Roig de Vargas-Linares), 565
Erythroblastosis, amniotic fluid antibody titers and other prognostic parameters in (Gusdon et al.), 85

plasma, measurements and ultrasonography, combined method for evaluating fetal well-being (Schiffer et al.), 1277
Estrogenic stimulation, chronic, response of rhesus monkey uterine cervix to (Graham), 1192
Estrogens, induced alteration in biologic activity of, by DDT (Fahim et al.), 1063
plasma immunoreactive, and LH during menstrual cycle (Abraham and Klaiber), 528
production of, in rhesus monkey, influence of HCG on (Hall and Heintz), 317 (Comm. in brief)
Ethanol, effect of, on uterine and umbilical hemodynamics and oxygen transfer (Dilts), 221
Ethinyl estradiol–norgestrel as oral contraceptive (Hernandez-Torres and Satterthwaite), 183
sequential therapy, lower dose, failures of contraception on (Miyamoto), 990 (Comm. in brief)

F

Fallopian tubes, human, response of, to neurohypophyseal hormones in vivo, influence of ovarian steroids on (Coutinho and Maia), 194
Family planning, continuance of, in health department clinic (Speidel and Wiener), 1134 (Current opinion)
Ferrokinetics and red cell production in puerperium (de Leeuw and Lowenstein), 588

XUM

Fetal acid-base chemistries, changes in, following THAM or bicarbonate infusions in fetal circulation or amniotic fluid (Seeds et al.), 1245
cardiovascular hemodynamics, effects of maternal hypoxia on (Brinkman et al.), 288
circulation or amniotic fluid, THAM or bicarbonate infusions in, changes in fetal acid-base chemistries following (Seeds et al.), 1245
death and intrauterine transfusion (Crosby, Brobmann, and Chang), 135 (Current investigation)
ultrasonic diagnosis of (Gottesfeld), 623
distribution and placental transmission of cyclamate in early human pregnancy (Pitkin, Reynolds, and Filer), 1043
effects of metaraminol infusion during obstetrical spinal hypotension (Shnider, de Lorimier, and Steffenson), 1017
endocrine and renal disorders, clues to origin of hydramnios (Naeye, Milic, and Blanc), 1251
hypophysectomy in utero, selective, technique for (Ostergard and Contopoulos), 322 (Comm. in brief)
lipid metabolism, role of placenta in (Biezenski), 638
and maternal blood, reversed relationship of oxygen affinity in (Parer), 323 (Comm. in brief)
circulations in human pregnancy at term, thyroid hormone relationships between (Robin et al.), 1269
disorders in pregnancies of mothers of twins (De George), 975
hypophysectomy in pregnancy, some effects of (Chez et al.), 643
maturation and amniotic fluid (Henneman et al.), 302
membranes, premature rupture of, confirmed by intra-amniotic injection of dye (Atlay and Sutherst), 993 (Comm. in brief)
prognosis and leukocyte alkaline phosphatase in placental dysfunction (Sadovsky et al.), 979
skin permeability to isotopic water in early pregnancy (Parmley and Seeds), 128 (Current investigation)
and uteroplacental circulations, effects of hydralazine on (Ladner et al.), 375
well-being, combined method for evaluating by plasma estriol measurements and ultrasonography (Schiffer et al.), 1277
Fetus, D-negative, and maternal anti-Rh(D) (Hopkins), 268
and neonate, control of pulmonary and vasomotor tone in (Assali et al.), 761
and newborn infant, oxygenation of, during maternal metabolic acidosis (Blechner et al.), 47
rat, effects of maternal phenylketonuria on (Luse, Rhys, and Lessey), 387
Fibrin, split products of, in maternal serum in perinatal period (Stiehm, Kennan, and Schelble), 941
Fibroblasts, human, in tissue culture, some effects of diazepam on fine structure of (Breen and Stenchever), 520
Fistula, rectovaginal (Given), 41
Fluid accumulation in pregnancy, circulatory dynamics of (Douglas, Coleman, and Whittington-Coleman), 999
amniotic, human, proteins in, qualitative and quantitative analysis of (Fischbacher and Quinlivan), 1051
spectrophotometry, predictive value (Cassady and Barnett), 1010
Folate metabolism, correlation of, with socioeconomic status in pregnancy and in patients taking oral contraceptives (Kahn et al.), 931
Folic acid in pregnancy (Rothman), 149 (Current developments)
Follicle-stimulating hormone serum, antiurinary, in radioimmunoassay (Kazeto and Hreshchyshyn), 1206
Funiform myometrioparietal post-cesarean section adhesions (Denis), 674 (Comm. in brief)
Furazolidone, in vitro effects of, on fine structure of *Haemophilus vaginalis* (Younes), 210

G

Genital herpesvirus infection (Amstey and Balduzzi), 188
tissues, human, cell proliferation kinetics in, autoradiographic analysis (Averette, Weinstein, and Frost), 8
Genitalia, external, ambiguous, in familial male hermaphroditism (Park and Jones), 1197
Genitals, ambiguous, due to congenital adrenal hyperplasia (Williamson), 1085
Germ-cell tumor occurring in dysgenetic gonads, prognosis, malignancy, and curability of (Teter), 894
Gestation, rabbit, early, phospholipid transfer in (Biezenski), 638
Gift, would that God would give us, to see ourselves as others see us (Parish), 1 (Presidential address)
Glucose versus saline as hypertonic solution for abortion (Droegemueller and Greer), 606
Gonad(s), dysgenetic, germ-cell tumor occurring in, prognosis, malignancy, and curability of (Teter), 894
histological examination of, in 1,452 cases of induced abortion, sex ratio (Lee and Takano), 1294 (Comm. in brief)
Gonorrhea, asymptomatic, in prenatal patients (Charles et al.), 595
female, therapy of, with cephaloridine (Shapiro and Lentz), 471
Growth retardation, intrauterine, experimental, in rats, carbohydrate metabolism in (Oh et al.), 415
pregnancy, and rheumatoid arthritis (Duhring), 325 (Comm. in brief)
Gynecologic pathology in *Macaca mulatta* (DiGiacomo and McCann), 538
surgery, lack of pathologic clot lysis following (McRae and McLean), 1068

H

Haemophilus vaginalis, fine structure of, in vitro effects of furazolidone on (Younes), 210
HCG, influence of, on production of estrogens in ovariectomized rhesus monkey (Hall and Heintz), 317 (Comm. in brief)
Health department clinic, continuance of family planning in (Speidel and Wiener), 1134 (Current opinion)
Hemodynamic effects, renal, of oxytocin in antepartal and postpartal women (Munsick), 729
Hemodynamics, fetal cardiovascular, effects of maternal hypoxia on (Brinkman et al.), 288
and oxygen transfer, uterine and umbilical, effect of ethanol on (Dilts), 221
Hemolytic uremic syndrome as cause of postpartum renal failure (Churg et al.), 253
Hemorrhage, intracranial, experimental, myocardial necrosis produced by, effects of pregnancy and hypertension (Douglas, Clower, and McNair), 576
Hermaphrodites, male, with female legal sex (Boczkowski), 474
Hermaphroditism, male, familial, with ambiguous external genitalia (Park and Jones), 1197
Herpesvirus infection, genital (Amstey and Balduzzi), 188
Heterotopic pregnancy, case of (Smith and Siddique), 1289 (Comm. in brief)
Histocompatibility studies in patients with trophoblastic tumors (Rudolph and Thomas), 1126
Homotransplantation, uteroovarian, ovarian function in (Mattingly et al.), 773
Hormonal therapy for adenocarcinoma of endometrium, pregnancy following (O'Neill), 318 (Comm. in brief)
Hormone, follicle-stimulating, antiurinary, in radioimmunoassay (Kazeto and Hreshchyshyn), 1206
immunoreactive luteinizing, in acetone precipitates and kaolin extracts of human urine (Baghdassarian et al.), 1178

Hormone—Cont'd
LH-releasing, administration of, to selected subjects (Kastin et al.), 177
neurophypophyseal, in vivo response of human Fallopian tubes to, influence of ovarian steroids on (Coutinho and Maia), 194
thyroid, relationships between maternal and fetal circulations in human pregnancy at term, study in patients with normal and abnormal thyroid function (Robin et al.), 1269
Host-parasite interactions, role of phagocyte in (Mitchell et al.), 805
Hydatidiform moles in other pregnancies of mothers of twins (De George), 369
Hydralazine, effects of, on uteroplacental and fetal circulations (Ladner et al.), 375
Hydramnios, origin of, fetal endocrine and renal disorders clues to (Naeye, Milic, and Blanc), 1251
Hypertension and pregnancy, effects of, on myocardial necrosis produced by experimental intracranial hemorrhage (Douglas, Clower, and McNair), 576
Hypertensive pregnancy, sodium and potassium in parotid saliva during (Tateiwa and Schewitz), 232
Hypophysectomy, fetal and maternal, some effects of, in pregnancy (Biezenski), 643
in utero, selective, technique for (Ostergard and Contopoulos), 322 (Comm. in brief)
Hypotension, obstetrical spinal, fetal effects of metaraminol infusion during (Shnider, de Lorimier, and Steffenson), 1017
Hypoxia, maternal, effects of, on fetal cardiovascular hemodynamics (Brinkman et al.), 288
Hysterectomy, cesarean section, evaluation of, as sterilization procedure (Brenner, Sall, and Sonnenblick), 335

I

Immunoglobulin G levels and titers of specific antiviral antibodies in amniotic fluid (Monif and Mendenhall), 643
Immunoreactive luteinizing hormone in acetone precipitates and kaolin extracts of human urine (Baghdassarian et al.), 1178
Incontinence, urinary stress, 1970 (Hodgkinson), 1141 (Current developments)
in women, surgical treatment for (Inglesi, Villamayor, and Tarzian), 1072
Indigent obstetric care and planned parenthood, program of, in rural North Carolina county (Clement), 63
Infection, genital herpesvirus (Amstey and Balduzzi), 188
Infertility, cervical mucus in cystic fibrosis possible cause of (Oppenheimer et al.), 673 (Comm. in brief)
reconstructive surgery for, at Boston Hospital for Women (Young et al.), 1092
Intraureteric pressures in women (Enhörning and Ulmsten), 462
Intrauterine device and ovarian pregnancy (Lehfeldt, Tietze, and Gorstein), 1005
fetal death, ultrasonic diagnosis of (Gottesfeld), 623
Iodine, protein-bound, and T4 tests after vaginal application of povidone-iodine (King and Diddle), 1175
Iron poisoning, acute, obstetrician's opportunity (Battle and Miller), 485 (Current opinion)
Irradiation and radiocontamination during pregnancy (Sternberg), 490 (Current developments)
Isoimmunization, rhesus, 3 year assessment of action line method of timing intervention in (Whitfield), 1239
Items, 176, 514, 1169
IUCD insertions, postpartum, lochia and menstrual patterns in women with (Hingorani, Bai, and Kakkar), 989 (Comm. in brief)
in situ, ovarian pregnancy with, report of two cases (Pane, Sabatalle, and Reyniak), 672 (Comm. in brief)

K

Kaolin extracts and acetone precipitates of human urine, immunoreactive luteinizing hormone in (Baghdassarian et al.), 1178

L

Labor, electrical activity of human uterus in (Sakaguchi and Nakajima), 992 (Comm. in brief)
free plasma 17β-estradiol in (Munson, Mueller, and Yannone), 340
and late pregnancy, plasma human placental lactogen in (El-Tomi, Crystle, and Stevens), 345
Lactation, clinical biochemical, and experimental studies on (Kamal et al.), 655
initiation of, clinical effects of steroids on (Kamal et al.), 655
Lactoferrin, secretory "piece," γA, γG, and γM, immunohistological localization of, in human female reproductive tract (Tourville et al.), 1102
Lactogen, human placental, in stimulation of rat uterus (Aoba, Heinrics, and Hermann), 676 (Comm. in brief)
plasma human placental, in late pregnancy and labor (El-Tomi, Crystle, and Stevens), 345
Laparoscopy, interval tubal sterilization via (Cohen, Taylor, and Kass), 458
Leukocyte(s) alkaline phosphatase and fetal prognosis in placental dysfunction (Sadovsky et al.), 979
endometrial, in patients using intrauterine contraceptive devices (Sedlis and Reyniak), 1209
from pregnant women, metabolic and bactericidal activities of (Mitchell et al.), 805
LH and plasma immunoreactive estrogens during menstrual cycle (Abraham and Klaiber), 528
LH-releasing hormone, administration of, to selected subjects (Kastin et al.), 177
Lipid metabolism, fetal, role of placenta in (Biezenski), 638
Lochia and menstrual patterns in women with postpartum IUCD insertions (Hingorani, Bai, and Kakkar), 989 (Comm. in brief)
Lung, cholinesterase activity in, influence of estradiol-17β on (Abdul-Karim, Drucker, and Jacobs), 1098
Luteinized cells of human ovary, nuclear DNA content of (Stangel et al.), 543
Luteinizing hormone, immunoreactive, in acetone precipitates and kaolin extracts of human urine (Baghdassarian et al.), 1178

M

Macaca mulatta, gynecologic pathology in (DiGiacomo and McCann), 538
Malformations, congenital, rubella in distant past as possible cause of (Plotkin and Mellman), 487 (Current opinion)
developmental, gross, blood serum amino acids of nonpregnant women who have given birth to children with (Roszkowski et al.), 1213
Malignancy, endometrial, diverse patterns (Woodruff, Julian, and Novak), 34
Mastitis, puerperal, acute (Devereux), 78
Maternal anti-Rh(D) and D-negative fetus (Hopkins), 268
cardiovascular dynamics (Ueland et al.), 615
and fetal blood, reversed relationship of oxygen affinity in (Parer), 323 (Comm. in brief)
circulations in human pregnancy at term, thyroid hormone relationships between (Robin et al.), 1269
disorders in pregnancies of mothers of twins (De George), 975
hypophysectomy in pregnancy, some effects of (Chez et al.), 643
hypoxia, effects of, on fetal cardiovascular hemodynamics (Brinkman et al.), 288

Maternal—Cont'd
serum, split products of fibrin in, in perinatal period (Stiehm, Kennan, and Schelble), 941
Maturation, sexual, in contemporary American girls (Zacharias, Wurtman, and Schatzoff), 833 (Current developments)
Medical profession and sex in 1900 (Hollender), 139 (Current opinion)
Membranes, timely rupture of, role of repeated stretching in mechanism of (Toppozada et al.), 243
Menstrual cycle, plasma immunoreactive estrogens and LH during (Abraham and Klaiber), 528
patterns and lochia in women with postpartum IUCD insertions (Hingorani, Bai, and Kakkar), 989 (Comm. in brief)
Mental development of children with congenital rubella syndrome (Streissguth, Vanderveer, and Shepard), 391
Metabolic and bactericidal activities of leukocytes from pregnant women (Mitchell et al.), 805
Metabolism, carbohydrate, in experimental intrauterine growth retardation in rats (Oh et al.), 415
fetal lipid, role of placenta in (Biezenski), 638
of ovarian steroids in patient with chronic familial anovulation (Ances, Haskins, and Ganis), 1130
Metaraminol infusion during obstetrical spinal hypotension, fetal effects (Shnider, de Lorimier, and Steffenson), 1017
Moles, hydatidiform, in other pregnancies of mothers of twins (De George), 369
Monkey, rhesus, uterine cervix, response of, to chronic estrogenic stimulation (Graham), 1192
Mucus, cervical, ability of, to act as barrier against bacteria (Enhörning, Huldt, and Melén), 532
in cystic fibrosis, possible cause of infertility (Oppenheimer et al.), 673 (Comm. in brief)
Myocardial necrosis produced by experimental intracranial hemorrhage, effects of pregnancy and hypertension (Douglas, Clower, and McNair), 576
Myometrial contractility, human, and myometrial response to catecholamines, influence on (Stander and Barden), 795
response to catecholamines and human myometrial contractility, influence of steroids on (Stander and Barden), 795
Myometrium, mouse, ultrastructural changes in, during pregnancy (Althoff and Albert), 1224
Myometrioparietal post-cesarean section adhesions, funiform (Denis), 674 (Comm. in brief)

N

Necrosis, myocardial, produced by experimental intracranial hemorrhage, effects of pregnancy and hypertension (Douglas, Clower, and McNair), 576
Neonatal bladder, primate, absence of active transmural sodium transport (Chez), 1290 (Comm. in brief)
infants and their mothers, concentrations of uric acid in serum (Monkus et al.), 91
Neonate(s) and fetus, control of pulmonary and vasomotor tone in (Assali et al.), 761
normal and pregnant women, and women receiving progestogens, serum total and free thyroxine and thyrotropin in (Malkasian and Mayberry), 1234
Neurohypophyseal hormones, in vivo response of human Fallopian tubes to, influence of ovarian steroids on (Coutinho and Maia), 194
Neuromuscular blocking agents, effects of, on uterine contractions in vitro (Reier and Moster), 610
Newborn infants, premature, effect of alcohol on (Wagner, Wagner, and Guerrero), 308
Nitrous oxide, thiopental, and succinylcholine anesthesia, cesarean section under (Ueland et al.), 615
Norgestrel–ethinyl estradiol as oral contraceptive (Hernandez-Torres and Satterthwaite), 183

O

Obstetric(s) care, indigent, and planned parenthood, program of, in rural North Carolina county (Clement), 63
vasopressors in; fetal effects of metaraminol infusion during obstetrical spinal hypotension (Shnider, de Lorimier, and Steffenson), 1017
in very young adolescent (Coates), 68
Ovarian failure, premature (Emperaire, Audebert, and Greenblatt), 445
function in uteroovarian homotransplantation (Mattingly et al.), 773
mucinous cystadenoma, virilization in pregnancy associated with (Chan and Prathap), 946
pregnancy and intrauterine device (Lehfeldt, Tietze, and Gorstein), 1005
with in situ IUCD, report of two cases (Pane, Sabatalle, and Reyniak), 672 (Comm. in brief)
steroids, influence of, on response of human Fallopian tubes to neurohypophyseal hormones in vivo (Coutinho and Maia), 194
metabolism of, in patient with chronic familial ovulation (Ances, Haskins, and Ganis), 1130
Ovary, Brenner's tumors of, clinicopathologic study of 53 cases (Jorgensen et al.), 122
cancer of (Parker, Parker, and Wilbanks), 878
endometrial cysts of, spontaneous rupture of, presenting as acute abdominal emergency (Pratt and Shamblin), 56
human, luteinized cells of, nuclear DNA content of (Stangel et al.), 543
polycystic, of rats under continuous auditory stress, studies on (Singh and Rao), 557
Ovulation, clomiphene-induced, pathophysiology of reproductive failure after (Jones et al.), 847
induction of, experience with (MacLeod et al.), 814
and pregnancy in patients with anorexia nervosa (Hart, Kase, and Kimball), 580
inhibition with long-acting injectable contraceptive, return of reproductive function after discontinuation (Yussman and Taymor), 901
Oxygen affinity, reversed relationship of, in maternal and fetal blood (Parer), 323 (Comm. in brief)
transfer and hemodynamics, uterine and umbilical, effect of ethanol on (Dilts), 221
Oxygenation of human fetus and newborn infant during maternal metabolic acidosis (Blechner et al.), 47
Oxytocic drugs used post partum, cardiovascular effects of (Hendricks and Brenner), 751
Oxytocin, renal hemodynamic effects of, in antepartal and postpartal women (Munsick), 729

P

Papanicolaou smears, abnormal (Townsend et al.), 429
Parasite-host interactions, role of phagocyte in (Mitchell et al.), 805
Parotid saliva, sodium and potassium in, during normal and hypertensive pregnancy (Tateiwa and Schewitz), 232
Patient presentations: panel, 18–21
Pelvic thrombophlebitis, suppurative (Collins), 681
Pesticide, human residues of DDT and DDE, spontaneous abortion and (O'Leary, Davies, and Feldman), 1291 (Comm. in brief)

Phagocyte, role of, in host-parasite interactions (Mitchell et al.), 805
Phenylketonuria, maternal effects of, on rat fetus (Luse, Rhys, and Lessey), 387
Phospholipid transfer in early rabbit gestation (Biezenski), 638
Placenta, extrachorial (circumvallate), in rhesus monkeys (Harbert, Martin, and Ramsey), 98
human, volumetric growth of, ultrasonic studies on (Hellman et al.), 740
manual removal, complication (Fealy), 19 (Patient presentations panel)
role of, in fetal lipid metabolism (Biezenski), 638
Placental abruption, severe, genesis (Pritchard), 22
dysfunction, leukocyte alkaline phosphatase and fetal prognosis in (Sadovsky et al.), 979
lactogen, human, in stimulation of rat uterus (Aoba, Heinrics, and Hermann), 676 (Comm. in brief)
lactogen, plasma human, in late pregnancy and labor (El-Tomi, Crystle, and Stevens), 345
membrane permeability to creatinine and urea (Moore and Ward), 635
protein, antibody to, naturally occurring, in human pregnancy (Gusdon, Leake, and Burt), 1056
serum, anti-mouse, purification and fractionation (Koren, Srivannaboon, and Behrman), 666
transfer of thiouracil derivatives, study of (Hayashi, Teubner, and Gilling), 723
transmission and fetal distribution of cyclamate in early human pregnancy (Pitkin, Reynolds, and Filer), 1043
Planned parenthood and indigent obstetric care, program of, in rural North Carolina county (Clement), 63
Plasma estriol levels in Class D diabetes of pregnancy (Levitz and Selinger), 82
Poisoning, iron, acute, obstetrician's opportunity (Battle and Miller), 485 (Current opinion)
Polycystic ovaries of rats under continuous auditory stress, studies on (Singh and Rao), 557
Polyhydramnios, chronic versus acute (Queenan and Gadow), 349
Postgranulomatous epidermoid carcinoma of vulva (Hay and Cole), 479
Potassium and sodium in parotid saliva during normal and hypertensive pregnancy (Tateiwa and Schewitz), 232
Povidone-iodine, vaginal application of, protein-bound iodine and T4 tests after (King and Diddle), 1175
Pregnancy(ies), beta thalassemia trait in, studies on (Pakes, Cooperberg, and Gelfand), 1217
cardiorespiratory response to exercise during (Charles et al.), 595
case of nephrogenic type diabetes insipidus complicating (Burstein and Chen), 1292 (Comm. in brief)
circulatory dynamics of, fluid accumulation (Douglas, Coleman, and Whittington-Coleman), 999
clinical test for (Graber, Barber, and O'Rourke), 991 (Comm. in brief)
and delivery in Negro with Ehlers-Danlos syndrome (Shemwell and Weed), 321 (Comm. in brief)
early human, placental transmission and fetal distribution of cyclamate in (Pitkin, Reynolds, and Filer), 1043
estriol concentrations in blood during (Taylor et al.), 868
folac acid in (Rothman), 149 (Current developments)
following hormonal therapy for adenocarcinoma of endometrium (O'Neill), 318 (Comm. in brief)
heterotropic, case of (Smith and Siddique), 1289 (Comm. in brief)
human, naturally occurring antibody to placental protein in (Gusdon, Leake, and Burt), 1056
at term, thyroid hormone relationships between maternal and fetal circulations in (Robin et al.), 1269
Pregnancy—Cont'd
and hypertension, effects of, on myocardial necrosis produced by experimental intracranial hemorrhage (Douglas, Clower, and McNair), 576
and induction of ovulation in patients with anorexia nervosa (Hart, Kase, and Kimball), 580
irradiation and radiocontamination during (Sternberg), 490 (Current developments)
late, and labor, plasma human placental lactogen in (El-Tomi, Crystle, and Stevens), 345
of mothers of twins, maternal and fetal disorders in (De George), 975
normal, free plasma 17β-estradiol in (Munson, Mueller, and Yannone), 340
and hypertensive, sodium and potassium in parotid saliva during (Tateiwa and Schewitz), 232
and pre-eclamptic, plasma cortisol levels and cortisol binding in (Kopelman and Levitz), 925
and Rh-sensitized, amniotic fluid proteins in (Queenan et al.), 406
therapeutic abortions of, frequency of pathologic changes in young human chorion in (Jurkovič and Muzelák), 382
urinary androgen excretion in, studies of (Longhino et al.), 364
and oral contraceptive steroids, influence of, on concentration of plasma proteins (Song et al.), 227
ovarian, with in situ IUCD, report of two cases (Pane, Sabatalle, and Reyniak), 672 (Comm. in brief)
and intrauterine device (Lehfeldt, Tietze, and Gorstein), 1005
and pyeloureteral dilation (Bellina, Dougherty, and Mickal), 356
rheumatoid arthritis, and intrauterine growth retardation (Duhring), 325 (Comm. in brief)
serum heat-stable alkaline phosphatase in (Leroux and Perry), 235
sex chromatin count in (Townsend, Case, and Lucas), 585
some effects of fetal and maternal hypophysectomy in (Biezenski), 643
ultrastructural changes in mouse myometrium during (Althoff and Albert), 1224
virilization in, associated with ovarian mucinous cystadenoma (Chan and Prathap), 946
Pregnant and normal women, neonates, and women receiving progestogens, serum total and free thyroxine and thyrotropin in (Malkasian and Mayberry), 1234
women, leukocytes from, metabolic and bactericidal activities of (Mitchell et al.), 805
Pregnenolone sulfate, effect of, on uterine contractility (Scommegna et al.), 1023
Premature newborn infants, effect of alcohol on (Wagner, Wagner, and Guerrero), 308
Prematurity and low birth weight litters, mechanism elicited by thermal stress (Billinson), 970
Pressure patterns, resting, in nonpregnant human uterus (Yoshida and Hendricks), 450
Progesterone secretion by corpus luteum of term pregnancy (LeMaire et al.), 132 (Current investigation)
uterine volume, intrauterine pressure, and clinical progress, relationship between, in hypertonic saline–induced abortions (Csapo, Sauvage, and Wiest), 950
Progestogens, women receiving, normal and pregnant women, and neonates, serum total and free thyroxine and thyrotropin in (Malkasian and Mayberry), 1234
Prolapse, rectal (Kirkely et al.), 20 (Patient presentations panel)
Proteins, amniotic fluid, in normal and Rh-sensitized pregnancies (Queenan et al.), 406
in human amniotic fluid, qualitative and quantitative analysis of (Fischbacher and Quinlivan), 1051

XUM

Proteins—Cont'd
plasma, concentration of, influence of pregnancy and oral contraceptive steroids on (Song et al.), 227
placental, antibody to, naturally occurring, in human pregnancy (Gusdon, Leake, and Burt), 1056
Protein-bound iodine and T4 tests after vaginal application of povidone-iodine (King and Diddle), 1175
Puerperal mastitis, acute (Devereux), 78
Puerperium, early, cardiovascular collapse and cardiac arrest in (Andrews), 18 (Patient presentations panel)
free plasma 17β-estradiol in (Munson, Mueller, and Yannone), 340
red cell production and ferrokinetics in (de Leeuw and Lowenstein), 588
Pulmonary and systemic vasomotor tone in fetus and neonate, control of (Assali et al.), 761
Pyeloureteral dilation and pregnancy (Bellina, Dougherty, and Mickal), 356
Pyohematocervix, two case reports (Wingfield and Roberts), 671 (Comm. in brief)

R

Radiocontamination and irradiation during pregnancy (Sternberg), 490 (Current developments)
Radioimmunoassay, antiurinary follicle-stimulating hormone serum in (Kazeto and Hreshchyshyn), 1206
Reconstructive surgery for infertility at Boston Hospital for Women (Young et al.), 1092
Rectal prolapse (Kirkley et al.), 20 (Patient presentations panel)
Rectovaginal fistula (Given), 41
septum, surgical significance of (Nichols and Milley), 215
Red cell production and ferrokinetics in puerperium (de Leeuw and Lowenstein), 588
Renal and endocrine disorders, fetal, clues to origin of hydramnios (Naeye, Milic, and Blanc), 1251
failure, postpartum, hemolytic uremic syndrome as cause of (Churg et al.), 253
hemodynamic effects of oxytocin in antepartal and postpartal women (Munsick), 729
Reproductive failure after clomiphene-induced ovulation, pathophysiology of (Jones et al.), 847
function, return of, after discontinuation of ovulation inhibition with long-acting injectable contraceptive (Yussman and Taymor), 901
tract, human female; immunohistological localization of γA, γG, γM, secretory "piece," and lactoferrin (Tourville et al.), 1102
Responsibility and right (Reid), 825 (Current opinion)
Rheumatoid arthritis, pregnancy, and intrauterine growth retardation (Duhring), 325 (Comm. in brief)
Rh-sensitized and normal pregnancies, amniotic fluid proteins in (Queenan et al.), 406
Right and responsibility (Reid), 825 (Current opinion)
Rubella in distant past as possible cause of congenital malformations (Plotkin and Mellman), 487 (Current opinion)
syndrome, congenital, mental development of children with (Streissguth, Vanderveer, and Shepard), 391
Rupture of fetal membranes, premature, confirmed by intraamniotic injection of dye (Atlay and Sutherst), 993 (Comm. in brief)

S

Saline versus glucose as hypertonic solution for abortion (Droegemueller and Greer), 606
Saliva, parotid, sodium and potassium in, during normal and hypertensive pregnancy (Tateiwa and Schewitz), 232
Sarcoma, endometrial stromal, response of, to cyclophosphamide (Hoovis), 1117
Schiller test, thyroid function studies following (Jimerson, Smith, and Merrill), 1288 (Comm. in brief)
Screening test for bacteriuria, comparative study (Billinson and Aubry), 988 (Comm. in brief)
Secretory "piece," lactoferrin, γA, γG, and γM, immunohistological localization of, in human female reproductive tract (Tourville et al.), 1102
Sex chromatin count in pregnancy (Townsend, Case, and Lucas), 585
legal female, male hermaphrodites with (Boczkowski), 474
and medical profession in 1900 (Hollender), 139 (Current opinion)
ratio of human embryos obtained from induced abortion, histological examination of gonad in 1,452 cases (Lee and Takano), 1294 (Comm. in brief)
Sexual maturation in contemporary American girls (Zacharias, Wurtman, and Schatzoff), 833 (Current developments)
Shirodkar suture (Bacchus and Hay), 250
Shock, endotoxin, experimental (Williams and Cavanagh), 1171
in primate, pathophysiology of (Cavanagh et al.), 705
Skin, fetal, permeability to isotopic water in early pregnancy (Parmley and Seeds), 128 (Current investigation)
Socioeconomic status, correlation of, with folate metabolism in pregnancy and in patients taking oral contraceptives (Kahn et al.), 931
Sodium and potassium in parotid saliva during normal and hypertensive pregnancy (Tateiwa and Schewitz), 232
transport, absence of active transmural, in primate neonatal bladder (Chez), 1290 (Comm. in brief)
South Atlantic Association of Obstetricians and Gynecologists, Transactions of thirty-second annual meeting, 1–67
Spectrophotometric analysis of amniotic fluid in early gestation (Niswander), 1296 (Comm. in brief)
Spectrophotometry, amniotic fluid, predictive value (Cassady and Barnett), 1010
Spermatozoa, localization of human male autoantibodies on (Fjallbränt), 550
Squamous epithelium, normal human cervical, fine structure of, in vitro (Shingleton and Wilbanks), 28
Starch and some clays, effect of ingestion of, on iron absorption (Talkington et al.), 262
Sterilization, interval tubal, via laparoscopy (Cohen, Taylor, and Kass), 458
procedure, evaluation of cesarean section hysterectomy as (Brenner, Sall, and Sonnenblick), 335
Steroids, clinical effects of, on initiation of lactation (Kamal et al.), 655
influence of, on human myometrial contractility and myometrial response to catecholamines (Stander and Barden), 795
ovarian, influence of, on response of human Fallopian tubes to neurohypophyseal hormones in vivo (Coutinho and Maia), 194
metabolism of, in patient with chronic familial anovulation (Ances, Haskins, and Ganis), 1130
Stillbirth, emotional reaction to (Wolff, Nielson, and Schiller), 73
Stress incontinence, urinary, in women, surgical treatment for (Inglesi, Villamayor, and Tarzian), 1072
urinary incontinence, 1970 (Hodgkinson), 1141 (Current developments)
Stretching, repeated, role of, in mechanism of timely rupture of membranes (Toppozada et al.), 243
Students, unmarried university, selected aspects of contraceptive practices of (Bauman), 203
Succinylcholine, thiopental, and nitrous oxide anesthesia, cesarean section under (Ueland et al.), 615

Suture, Shirodkar (Bacchus and Hay), 250
Systemic and pulmonary vasomotor tone in fetus and neonate, control of (Assali et al.), 761

T

Teen-age patient, cervical cytology in (Kaufman, Burmeister, and Spjut), 515
Teratogenic and abortifacient effects of triacetyl-6-azauridine in monkey (van Wagenen et al.), 272
Thalassemia, beta, trait in pregnancy, studies on (Pakes, Cooperberg, and Gelfand), 1217
THAM or bicarbonate infusions in fetal circulation or amniotic fluid, changes in fetal acid-base chemistries following (Seeds et al.), 1245
mechanism elicited by (Billinson), 970
Thermal stress, prematurity and low birth weight litters,
Thiopental, nitrous oxide, and succinylcholine anesthesia, cesarean section under (Ueland et al.), 615
Thiouracil derivatives, placental transfer of, study of (Hayashi, Teubner, and Gilling), 723
Thrombophlebitis, suppurative pelvic (Collins), 681
Thyroid function studies following Schiller test (using Lugol's solution) (Jimerson, Smith, and Merrill), 1288 (Comm. in brief)
hormone relationships between maternal and fetal circulations in human pregnancy at term, study in patients with normal and abnormal thyroid function (Robin et al.), 1269
Thyrotropin and thyroxine, serum total and free, in normal and pregnant woment, neonates, and women receiving progestogens (Malkasian and Mayberry), 1234
Thyroxine and thyrotropin, serum total and free, in normal and pregnant women, neonates, and women receiving progestogens (Malkasian and Mayberry), 1234
Transactions of ninety-third annual meeting of American Gynecological Society, 681–824
Transfusion, intrauterine, and fetal death (Crosby, Brobmann, and Chang), 135 (Current investigation)
Triacetyl-6-azauridine, abortifacient and teratogenic effects of, in monkey (van Wagenen et al.), 272
Trichomonas vaginalis, pathogenicity of (Kulda et al.), 908
Trophoblast, normal and malignant, electron microscopic and biochemical patterns of (Garancis et al.), 1257
Trophoblastic tumors, histocompatibility studies in patients with (Rudolph and Thomas), 1126
Tubal sterilization, interval, via laparoscopy (Cohen, Taylor, and Kass), 458
Tumor, Brenner's, of ovary, clinicopathologic study of 53 cases of (Jorgensen et al.), 122
germ-cell, occurring in dysgenetic gonads, prognosis, malignancy, and curability of (Teter), 894
tissue, cross-implantation of, and cross-transfusion in patients with advanced cancer (Willoughby et al.), 889
trophoblastic, histocompatibility studies in patients with (Rudolph and Thoams), 1126
vulvar, in children due to prolapse of urethral mucosa (Capraro, Bayonet-Rivera, and Magoss), 572
Twins, mothers of, hydatidiform moles in other pregnancies of (De George), 369
pregnancies of, maternal and fetal disorders in (De George), 975

U

Ultrasonic diagnosis of intrauterine fetal death (Gottesfeld), 623
Ultrasonic—Cont'd
studies on volumetric growth of human placenta (Hellman et al.), 740
Ultrasonography and plasma estriol measurements, combined method for evaluating fetal well-being (Schiffer et al.), 1277
Ultrastructural observations on amniotic fluid cells (Nieland, Parmley, and Woodruff), 1030
Umbilical artery, single, genesis of (Monie), 400
and uterine hemodynamics and oxygen transfer, effect of ethanol on (Dilts), 221
Urea and creatinine, placental membrane permeability to (Moore and Ward), 635
Uremic syndrome, hemolytic, as cause of postpartum renal failure (Churg et al.), 253
Urethral mucosa, prolapse of, vulvar tumor in children due to (Capraro, Bayonet-Rivera, and Magoss), 572
Uric acid, concentrations of, in serum of neonatal infants and their mothers (Monkus et al.), 91
Urinary androgen excretion in normal pregnancy, studies of (Longhino et al), 364
incontinence, stress, 1970 (Hodgkinson), 1141 (Current developments)
stress incontinence in women, surgical treatment for (Inglesi, Villamayor, and Tarzian), 1072
Urine, human, acetone precipitates and kaolin extracts of, immunoreactive luteinizing hormone in (Baghdassarian et al.), 1178
Uterine adenocarcinomas and adenoacanthomas, comparison of clinical behavior of (Pokoly), 1080
blood flow in nonpregnant sheep, thermal aspects (Abrams et al.), 917
studies, automated collecting and measuring device for (Abrams et al.), 936
cervix, human, significance of abnormal sites of DNA synthesis in certain lesions of (Rashad and Evans), 435
of rhesus monkey, response of, to chronic estrogenic stimulation (Graham), 1192
contractility, effect on, of pregnenolone sulfate (Scommegna et al.), 1023
contractions, effects of neuromuscular blocking agents on, in vitro (Reier and Moster), 610
and umbilical hemodynamics and oxygen transfer, effect of ethanol on (Dilts), 221
volume, intrauterine pressure, clinical progress, and progesterone, relationship between, in hypertonic saline–induced abortions (Csapo, Sauvage, and Wiest), 950
Uteroovarian homotransplantation, ovarian function in (Mattingly et al.), 773
Uteroplacental and fetal circulations, effects of hydralazine on (Ladner et al.), 375
Uterus, human, electrical activity of, in labor (Sakaguchi and Nakajima), 992 (Comm. in brief)
nonpregnant, resting pressure patterns in (Yoshida and Hendricks), 450
rat, human placental lactogen in stimulation of (Aoba, Heinrics, and Hermann), 676 (Comm. in brief)

V

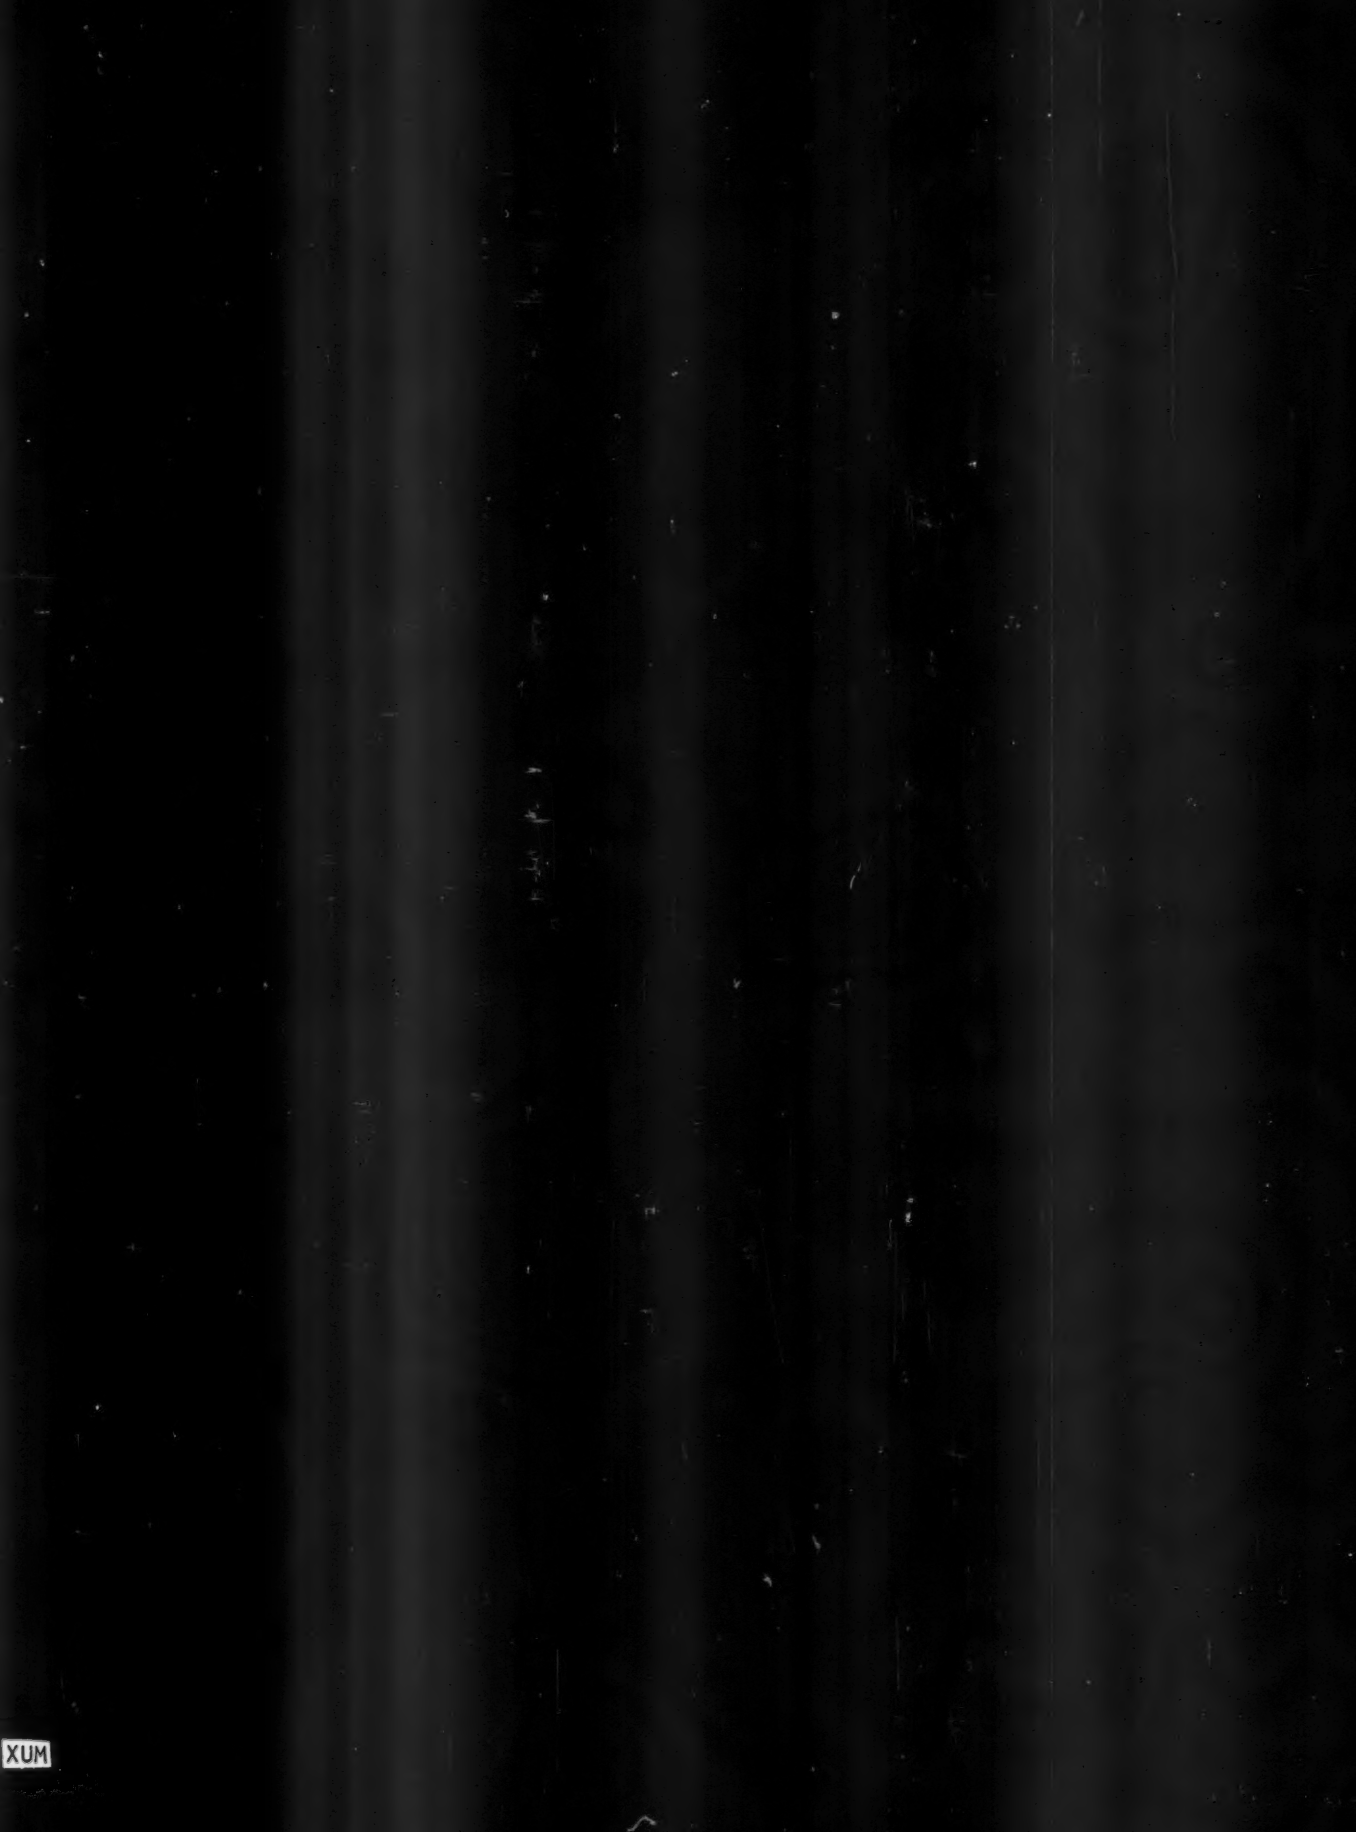
Vagina, carcinoma in situ of (Hummer et al.), 1109
and cervix, normal, cell proliferation kinetics in, autoradiographic analysis (Averette, Weinstein, and Frost), 8
Vaginal cytology, initial negative and atypical, cervical cancer after (Figge, Bennington, and Schweid), 422
epithelium, human, cell junctions in (Burgos and Roig de Vargas-Linares), 565
Vasomotor tone, pulmonary and systemic, in fetus and neonate, control of (Assali et al.), 761

XUM

Vasopressors in obstetrics; fetal effects of metaraminol infusion during obstetrical spinal hypotension (Shnider, de Lorimier, and Steffenson), 1017
Virilization in pregnancy associated with ovarian mucinous cystadenoma (Chan and Prathap), 946
Vulva, carcinoma of, intraepithelial (Collins, Roman-Lopez, and Lee), 1187
Vulva—Cont'd
postgranulomatous epidermoid carcinoma of (Hay and Cole), 479
Vulvar tumor in children due to prolapse of urethral mucosa (Capraro, Bayonet-Rivera, and Magoss), 572

W

Water, isotopic (THO), fetal skin permeability to, in early pregnancy (Parmley and Seeds), 128 (Current investigation)



XUM
